Larissa had everything, she was married, privileged, living a life of luxury, seemingly destined for great success until one day all that changed. Past trauma that she sought desperately to outrun had finally caught up with her. Angry at life's injustices, resorting to deception and destruction to get even becomes her modus operandi. No one is safe. There are no limits to what she is capable of. A trail of carnage draws the attention of the FBI's Special Agent Isabella Ashford, who pursues this relentless suspect with equally unflinching determination. The chase takes her from the United States to the exotic locales of Europe.

This isn't the detective's first foray, as Special Agent Ashford has been the protagonist of Gliozzi's other novels. Gifted with a strong sense of intuition and perhaps even psychic abilities, Ashford is uniquely equipped to track down this female serial killer. The previous novels "Foresight" and

"Hunted" have chronicled her past investigations, but this may be her most dangerous yet.
