The inaugural CultureCon West conference was hosted in June 2023 in Southern California and featured presentations from workplace culture executives representing companies including Reebok, SAP, Zuroa, and Blizzard Entertainment. With hundreds of attendees from across the country, the conference received a [Certificate of Special Recognition](#) from the United States Congress.

“

Our new venue and location not only represents the growth of our CultureCon brand and audience, but also underscores the increasing priority among organizations to build more engaging workplaces.”

Zach Blumenfeld

This year, CultureCon West 2024 transforms into an even more dynamic and comprehensive experience. Taking place on November 13th and 14th, the conference will showcase an impressive lineup of industry thought leaders from across the country. The conference includes wide-ranging workplace culture topics including diversity, equity, inclusion, and belonging; organizational resiliency; hybrid

work environments; mental health care; employer branding; corporate social responsibility; employee learning and development; and many others that positively influence employee engagement and overall organizational performance.

“Our new venue and location not only represents the growth of our CultureCon brand and audience, but also underscores the increasing priority among organizations to build more engaging and productive workplaces,” says Zach Blumenfeld, Co-founder of CultureCon LLC. “Our conference topics often follow macroeconomic trends that are impacting businesses of all

shapes and sizes.”

CultureCon West 2024 will feature more than presentations from speakers. The conference is an immersive experience through the latest workplace culture trends and actionable best practices. From hands-on workshops to networking opportunities with fellow cultural change agents, attendees will gain valuable insights into creating more dynamic, inclusive, and forward-thinking work environments. "At the end of the day, it's about empowering and equipping each individual to become a catalyst for change," adds Nick Lombardino, Co-founder. "Not only do we want attendees to leave with actionable tools, but also with a sense of shared accountability towards creating a better world of work for ourselves, our teams, and organizations."
