D-Central Technologies Unveils Bitaxe Stand v2 and upgrades it's Bitaxe 1366 to v202

D-Central Enhances Bitaxe Series with Stand v2, Adds OSMU Products, and Advances Open Source Mining Tech

LAVAL, QC, CANADA, January 13, 2024 /EINPresswire.com/ -- D-Central Technologies, a leader in the Bitcoin mining industry, is proud to announce significant advancements in its flagship product line, the [Bitaxe](#) series, with the introduction of the Bitaxe Stand v2, the release of version 202 and ongoing development for version 204.

A few Bitaxe 1366 v202 in their Bitaxe Stand v2

Alongside, D-Central has expanded its offerings by adding a range of Open Source Miners United (OSMU) products, further solidifying its position in the cryptocurrency mining sector.

Bitaxe Stand v2: Enhanced Stability

> "Bitaxe is more than a miner; it's an educational journey into the heart of mining technology."
>
> *Jonathan Bertrand*

The Bitaxe Stand v2 from D-Central, suitable for Bitaxe v201 to v204 models, provides much more stability and perfectly exposes the beauty of the Bitaxe PCB. The Bitaxe Stand v2 is designed to accommodate various fan configurations, ensuring robust support and improved efficiency for Bitaxe miners. This development highlights D-Central's commitment to continuous innovation and user-centered design. Just like version 1 of the Bitaxe Stand, this version is open source and available from D-Central's 3D section of the download page.

Bitaxe Series Evolves: Version 202 Release and Preparing for Version 204

The Bitaxe series continues to evolve with the latest release of version 202 and the anticipated integration of version 204, set for February. These versions reflect D-Central's dedication to offering cutting-edge technology and high-performance mining solutions. The Bitaxe series, known for its superior mining performance and exceptional energy efficiency, sets new

standards in cryptocurrency mining, with the 1366 model boasting up to 550 GH/s hash rate and 20 J/TH efficiency.

Expanding the OSMU Product Range: Empowering the Mining Community

D-Central has also broadened its product portfolio by including more OSMU products, notably [Antsniffer](#) and [Bitcrane](#). These additions align with D-Central's ethos of supporting open-source projects and fostering a collaborative mining community. Antsniffer, a tool for tapping into Antminer data cables, and Bitcrane, a USB hashboard adapter, represent the latest in mining technology, tailored for efficiency and innovation.

The Educational Value of Bitaxe: More Than Just Mining

Bitaxe is not just a mining tool; it's an educational platform. The open-source nature of Bitaxe hardware allows users to delve into the technicalities of Bitcoin mining, offering a hands-on learning experience. It's an excellent tool for those looking to understand the inner workings of mining technology, from the basics of ASIC design to the complexities of hash rate optimization.

The Challenges and Rewards of Using Bitaxe

While Bitaxe offers several benefits, potential users should be aware of the challenges and risks involved. As an open-source project, Bitaxe is continually evolving, which may involve software or hardware bugs. Users should possess a certain level of technical skill and knowledge for assembly and operation. Despite these challenges, many users find the benefits of Bitaxe—such as its efficiency, customization possibilities, and alignment with the ethos of decentralization—make it a worthwhile endeavor.

Future Outlook: Continual Growth and Innovation

Looking ahead, D-Central remains committed to growing its Bitaxe series and OSMU product range. With a focus on innovation, quality, and customer satisfaction, D-Central Technologies continues to strengthen its position as a leader in the Bitcoin mining industry.

About D-Central Technologies

D-Central Technologies has been at the forefront of the Bitcoin mining sector since 2016. Known for its flexible mining hosting solutions and as the most trusted refurbished hardware reseller in Canada, D-Central is committed to the Bitcoin Maximalism philosophy and champions the use of technologies to strengthen individual sovereignty. Our reputation is built on trust, innovation, and our unwavering commitment to the crypto community.
