

# New and Improved Bathing System Keeps Pets Comfortable While Containing Water During Bath Time

MONROEVILLE, PA, USA, January 16, 2024 /EINPresswire.com/ -- Christopher W. of Colorado Springs, CO is the creator of the Cat Tub, a comprehensive small bathing system for cats, dogs, and other small animals. Pet owners can place their animals inside the system via a hinged lid and bathe them while keeping the pet contained and comfortable. A small tray accommodates a pet inside the system, equipped with a handle and release valve to drain extra water. A plug supplies power to the water hose adapter that dispenses warm water onto the pet. Pet owners can place their hands through the front openings to lather and bathe their pet with ease. The system keeps all water contained while the pet remains calm and comfortable when being bathed.

The market for pet bathing devices and accessories is dynamic and diverse, catering to the needs and preferences of pet owners who want to make the bathing experience more convenient, enjoyable, and beneficial for their pets. The increasing focus on pet health and grooming has contributed to the ongoing growth of this market. Products that help contain water during bath time to keep bathrooms and other areas clean can provide much needed innovation within the market. Devices to safely secure and restrain pets during baths, minimizing stress and ensuring safety are also being manufactured to make bath time much easier and more convenient for pet owners. Additionally, the rise of DIY grooming trends has led to the popularity of home grooming systems that include a variety of bathing tools for pet owners to use themselves. Products like the Cat Tub fill several of these niches and would significantly expand any manufacturer's product line.

Christopher filed his Utility Patent with the United States Patent and Trademark Office (USPTO) and is working closely with [InventionHome](#), a leading invention licensing firm, to sell or license the patent rights to his Cat Tub product. Ideal licensing candidates would be U.S. based product manufacturers or distributors looking to further develop and distribute this product innovation.

Companies interested in the Cat Tub can contact InventionHome at [member@inventionhome.com](mailto:member@inventionhome.com). Inventors currently looking for assistance in patenting, marketing, or licensing their invention can request information from InventionHome at [info@inventionhome.com](mailto:info@inventionhome.com) or by calling 1-866-844-6512.

#### About InventionHome®

InventionHome is a leading invention and product licensing firm focused on helping inventors and entrepreneurs through the invention and patent process with the goal of licensing or wholesaling client inventions. For more information, email [info@inventionhome.com](mailto:info@inventionhome.com) or visit <https://www.inventionhome.com>.
