

# SPHERE Leads in Discovery & Security of Privileged Accounts Across Infrastructures by Unveiling New Product Capabilities

NEWARK, NJ, USA, January 17, 2024

/EINPresswire.com/ -- [SPHERE](#), the global leader, and an award-winning provider of innovative solutions for [identity hygiene](#) and access governance, today announced that it has strengthened its market dominance with new product capabilities that empower enterprises

to discover and secure privileged access across core infrastructure such as AD, Windows, Unix, Database, and more.

Cutting-edge identity hygiene platform

The latest release delivers unmatched breadth and depth of discovery, monitoring and protection for privileged accounts within all critical elements that form the backbone of a company's technological and operational capabilities. We expanded connectivity to database platforms such as MS SQL, MySQL, Sybase, Oracle, MongoDB and [CassandraDB](#). SPHERE now stands alone as the only solution able to handle this complete use case for modern on-prem, hybrid, and cloud-centric infrastructure.

"We are continually raising the bar for Managing Access, Managing Risk and Managing Identities in the era of identity-first security. SPHEREboard provides a single pane of glass across all accounts across all critical infrastructure with these latest groundbreaking new capabilities "said James Wilde, Global Head of Engineering at SPHERE. "We leapfrogged ahead of alternatives to deliver immediate time-to-value and unmatched security for our clients, enabling them to find and reduce risks across their entire landscape of databases and data platforms - something no other vendor can match," he added.

The updated key features in this release include:

- Enhanced scalability to process millions of vaulted accounts in hours - 4X faster than before
- Upgrades to matching and analytics for continuous protection of an organization's most valuable digital assets
- Improved reporting and oversight into identity program status, campaign performance and

remediation

-Added automation through Virtual Worker to streamline identity administration

With its latest innovations in discovery, analytics, and automation across heterogeneous infrastructure, SPHERE provides unmatched "identity hygiene" solutions tailored for modern digital environments. For more information, please visit <https://sphereco.com/sphereboard-overview/>

#### About SPHERE:

SPHERE is the global leader in Identity Hygiene. We are dedicated to reshaping modern identity programs by embedding this foundational fabric, enabling organizations to quickly reduce risks. Our expertise lies in leveraging automation to deliver immediate time-to-value, providing an identity lens that protects an organization's accounts, data, and infrastructure.

Driven by SPHERE's core values of passion, empathy, and transparency, its vision drives SPHERE to continually innovate, helping clients to sleep better knowing that potential attack surface is drastically reduced, thwarting the plans of bad actors every single day.
