

Tehama Technologies Joins Microsoft for Startups Pegasus Program

Tehama's innovative Cybersecurity Platform for Hybrid Work, combined with Microsoft's powerful cloud offerings, offers significant value for businesses.

OTTAWA, ONTARIO, CANADA, January 18, 2024 /EINPresswire.com/ -- Tehama Technologies, provider of the leading all-in-one [cybersecurity](#) platform for delivering secure access to data and applications by hybrid and remote workers has been accepted into the Microsoft's Startups Pegasus Program.

As a participant in the invite-only Pegasus program, Tehama's innovative and disruptive cybersecurity platform when combined with Microsoft's powerful cloud-delivered solutions, provides comprehensive, end-to-end, policy-based data protection, application security with the flexibility of hybrid or remote work. Through the Microsoft for Startups Founders Hub, Tehama can also collaborate closer with industry experts and engage with Microsoft sales teams and partners to accelerate Tehama's global go-to-market expansion.

“

Our collaboration with Microsoft and involvement in the Pegasus program is crucial to our global strategy. Our disruptive approach, paired with Microsoft's cloud and AI solutions, is a game changer.”

Mick Miralis, Vice President of Worldwide Channels, Tehama.

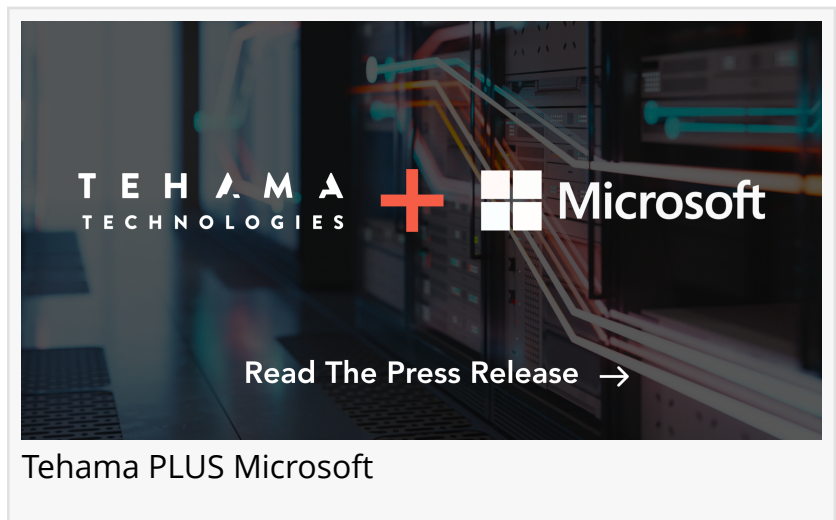

“No other solution provides a comprehensive platform for securely connecting hybrid and remote workers to mission-critical and data-sensitive systems with the security, flexibility and automation that Tehama offers,” said Mick Miralis, Chief Revenue Officer, Tehama

Technologies. “With the resources we have access to through the Pegasus program, Tehama will be able to accelerate the development of our platform and reach more businesses worldwide by extending our unique offering to Microsoft customers globally. Our partnership with Microsoft and participation in the prestigious Pegasus program is a critical part of our global go-to-market

strategy. Our disruptive approach and vision for delivering innovative, end-to-end security combined with Microsoft's cloud and AI solutions is an absolute game changer."
