

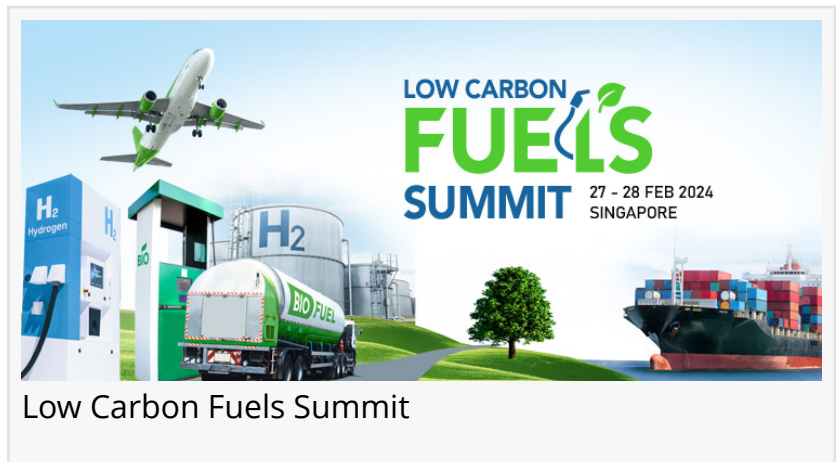

Charting the Future: Low Carbon Fuels Summit 2024 Tackles Challenges & Opportunities of Scaling Low-Carbon Fuels Economy

Sustainability, decarbonization, challenges and opportunities in scaling Low Carbon Fuels to be explored at Singapore summit on 27 - 28 February.

SINGAPORE, January 23, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- Prepare for a transformative exploration of sustainability, decarbonization, and climate change impact on fuels dynamics at the highly anticipated Low

Carbon Fuels Summit 2024. Scheduled on 27th - 28th of February in Singapore, and supported by Associate sponsor Apical, this 1.5-day summit is set to unite industry experts across diverse sectors to delve into key themes shaping the low-carbon fuels landscape.

Low Carbon Fuels Summit

Key Themes:

1. [Global Biofuels Market Outlook](#): Navigating New Regulations and Strategies

Gain valuable insights into the global biofuels market outlook, unravelling the impact of new regulations and exploring innovative strategies to navigate the evolving landscape of biofuels.

2. Commercializing Advanced Biofuels in Asia: Unravelling Feedstock Availability

Delve into the commercialization strategies of advanced biofuels in the Asian market, while addressing the critical issue of feedstock availability. Uncover innovative solutions driving the industry towards a sustainable future.

3. [Decarbonizing Land Transport](#): Impact of EV/Hybrid on the Biodiesel Industry

Explore the transformative impact of electric and hybrid vehicles on the biodiesel industry, as industry leaders discuss strategies for decarbonizing land transport in an era of evolving technologies.

4. Sustainable Aviation Fuel (SAF): Navigating Growth Trends and New Technologies

Immerse yourself in a panel discussion focused on the sustainable growth trends of Sustainable Aviation Fuel (SAF). Explore new technologies such as methanol to jet and power to liquid that are reshaping the aviation industry.

5. Future of Marine Fuels: Green Methanol, Green Ammonia, and More

Engage in insightful panel discussions on the future of marine fuels, exploring the role of green methanol, green ammonia, liquid hydrogen, and other innovations. Navigate the complexities of carbon pricing in the shipping industry.

6. [Green Hydrogen: Unlocking the Potential for a Sustainable Future](#)

Embark on a journey into the realm of green hydrogen, exploring its potential to transform the energy landscape. Uncover the latest developments, innovations, and strategies driving the adoption of green hydrogen.

Join the Dialogue at Low Carbon Fuels Summit 2024 Immerse yourself in the latest technologies, key challenges, and policy impacts, contributing to the dialogue on feedstock supply and sustainable energy solutions. This unparalleled event offers a unique platform to connect with industry leaders and experts from SE Asia, Asia, Oceania, Europe, United States and beyond.

Among them are key representatives from:

Deloitte Southeast Asia Ltd

The International Council on Clean Transportation - ICCT

Apeiron Bioenergy

Apical

Global Centre for Maritime Decarbonisation

Scania Malaysia Sdn Bhd

Bloomberg

Honeywell UOP

Neste Asia Pacific

All Nippon Airways Co., Ltd (ANA)

Aviation Initiative for Renewable Energy/ Airbus

Rolls-Royce

Cebu Pacific Air

Wartsila Singapore Pte Ltd

DNV GL

Lux Research

HFW Singapore

Santomo Resources

ENGIE Lab Singapore
