

Construction Links Network: Amplifying Digital Presence in the Construction Industry - January 18, 2024

The latest news, blogs and videos for the construction and building industry.

SUNDRE, ALBERTA, CANADA, January 18, 2024 /EINPresswire.com/ -- Since its inception in 2003, Construction Links Network has solidified its position as a leading news platform in the construction sector, dedicated to boosting the digital presence and search engine optimization of its members. This diverse network serves an extensive range of industry professionals, including construction managers, contractors, developers, as well as building and property managers, architects, designers, engineers, and government officials.

Functioning as a dynamic center for digital content sharing, Construction Links Network enables its members to engage with various mediums such as news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, and videos.

This week's highlight is a video from the Canadian Apprenticeship Forum (CAF-FCA), focusing on their study of substance use among apprentices and tradespeople in the skilled trades sector. The study seeks to delve into the real-life experiences and support needs of these individuals regarding substance use. CAF-FCA has incorporated feedback from pre-apprentices, apprentices, and tradespeople to inform their strategy, and this video sheds light on their research findings.

Featured content for this week encompasses:

- [Developments in Construction Technology](#): Latest Trends and Innovations – No. 40
