

Enginuity Power Systems Announces Expanded Portfolio of Private Generation Energy Products

Enginuity will feature these products at AHR Expo, POWERGEN International, International Builders' Show and the National Hardware Show

ALEXANDRIA, VA, UNITED STATES, January 18, 2024 /EINPresswire.com/ -- [Enginuity Power](#)

“

We are very excited about the commercial availability of our products in 2024, which are on display at the leading industry trade shows and events we are attending.”

Steve Niswander

[Systems](#) (Enginuity) announces the availability of an expanded portfolio of high-efficiency, private generation products for the United States and global markets, including an 8kW and 20kW combined heat and power system for residential and light commercial placement, 100kW and 200kW combined heat and power systems for commercial buildings, and a 3.6 kW personal power station that provides power on-the-go and can be re-charged by portable solar panels.

“We are very excited about the commercial availability of our products in 2024, which are on display at the leading industry trade shows and events we are attending”, says Enginuity Power Systems’ Steve Niswander, “these clean energy and storage products support our goals to affordably, efficiently produce reliable energy and electricity as an environmentally friendly solution for individuals, homes and businesses.”

Enginuity Power Systems will be presenting these products at leading industry trade shows over the coming months, including [AHR Expo](#) in Chicago, IL (Booth S10191), [POWERGEN International](#) in New Orleans, LA (Booth 3059), International Builders’ Show in Las Vegas, NV (Booth C2535) and the National Hardware Show in Las Vegas, NV (Booth W4048).
