The expansion of distribution channels such as online

stores, specialty stores, supermarkets, and hypermarkets globally, has made these golf clothing easily accessible to users, which, in turn, contributes toward the market growth. Moreover, print on golf shirts & shorts, short sleeves golf dress are some of the latest golf clothing market trends which is contributing towards the growth of the market.

Emergence of trend of golf tourism, surge in fitness consciousness among consumers, and trend for fashionable sports apparel drive the growth of the global golf clothing market. North America contributed to the highest share in terms of revenue in 2020, and is estimated to maintain its lead position by 2030. Manufacturing activities of golf clothing halted due to lockdown implementations across various countries during the Covid-19 pandemic. Increasing disposable incomes and growing health awareness among individuals have fostered the growth of the market in the region. International brands are actively expanding in the region to tap the latent opportunities in the region.

By product type, the bottom wear segment is expected to be the fastest growing segment during the forecast period. This is attributable to the increase in number of participations in sports tournaments and physical activities, especially golf. Thus, consumers in the countries such as the U.S., Canada, Australia, and others, are increasingly spending on sport apparels, including bottom wear, which aid them to perform well in the sports, as they improve mobility.

On the basis of distribution channel, the online store segment is anticipated to register the fastest growth, as users are more inclining toward online shopping due to easy accessibility of different sports apparel. Heavy discounts and offers on sporting goods, apparels, including golf clothing provided by these online platforms boosts the sales of golf clothing in the market.
