Lumenia ERP HEADtoHEAD event, 13-14 March, thought leadership sessions

"ERP is as important as ever. It is a central platform for most organisations and a foundation on which many of their digital transformation initiatives will be built. The continued focus on ERP demonstrates its centrality to digitalisation, which is a key imperative across all sectors. Surveying the various options in the ERP market can take time. If you are looking to replace, upgrade or select an ERP or simply want to find out more about the ERP marketplace, this event will prove to be a very efficient use of your time. Not only that, across the two days you will hear from Lumenia independent ERP experts about many of the good practices to follow, and pitfalls to avoid, when embarking on an ERP transformation programme.", commented Ian O'Toole, Managing Partner at Lumenia.

The ERP vendors will also be available in the expo area for questions and 1:1 meetings and the expert ERP team at Lumenia are on hand for impartial guidance and advice.

As attendance at the event is limited to organisations who are potential buyers of ERP, it's also an ideal opportunity to network with others about to embark on the same journey and the event will have ample time for meetings and networking.
