

RefillGenie Celebrates Three Years of Online Medication Refills, Expanding Access to Life-Saving Care

The company announces an expansion of services, now covering 33 states in 2024.

JERSEY CITY, NEW JERSEY, UNITED STATES, January 23, 2024 /EINPresswire.com/ --

[RefillGenie](#), formerly Stopgap Health,

celebrates its third anniversary as a leading provider of online prescription refills, ensuring patients never miss a crucial dose of their medication. Driven by a commitment to improving healthcare access, RefillGenie has empowered hundreds of Americans to seamlessly refill prescriptions, even when facing gaps in insurance coverage or doctor appointments.

"We founded RefillGenie because we saw firsthand the devastating consequences of medication lapses," says Dr. Stephen Kelly, Founder of RefillGenie. "Patients shouldn't have to worry about accessing life-saving medications due to bureaucratic hurdles. We're proud to have helped so many people stay healthy and avoid preventable health complications."

RefillGenie's text-based platform simplifies the refill process. Patients simply enter their prescription details into the website, and RefillGenie's team of licensed healthcare professionals takes care of the rest by working directly with doctors and pharmacies to ensure timely and accurate refills, even for complex medications or patients without insurance coverage.

The company's dedication to patient care is reflected in its impressive growth and positive testimonials. RefillGenie is now available in 33 states, with plans to expand nationwide in the coming year. Patients consistently praise the service for its speed, reliability, and affordability.

Patient testimonials underscore the impact RefillGenie has had on individual lives. Chris Holmes, a satisfied patient, shared, "The service from RefillGenie is always fantastic. They are fast, reliable, and affordable." Chrystal Belle's experience highlights the efficiency of the service: "This was fast, I contacted them in the evening. I got same day service within like 20 mins...They were nice. They were reassuring. Also extremely affordable."

To meet the growing demand for its services, RefillGenie is also gearing up to expand its team. This year, the company will hire its first group of nurse practitioners to provide even greater

support to patients and streamline the refill process.

“We’re excited about the future of RefillGenie,” says Dr. Kelly. “We’re constantly innovating and expanding our services to ensure everyone has access to the medication they need. By working together, we can create a healthcare system that prioritizes patients and empowers them to take control of their health.”

###

About RefillGenie

The physician founders of RefillGenie were tired of seeing patients suffer from strokes and heart attacks simply because they were unable to refill their blood pressure medication. For that reason, they created a simple, text-based service to ensure anyone can access their life-saving medications, even when in-between doctors or insurance plans.

Note to Editors

RefillGenie, in its three years of operation, has not only expanded geographically but also in the scope of services offered. With the introduction of nurse practitioners, RefillGenie aims to provide more comprehensive care. This growth reflects the company's adaptability and responsiveness to the evolving needs of the healthcare sector, especially in the realm of telemedicine and online prescription management. As RefillGenie continues to grow, it remains steadfast in its original mission: to prevent health crises caused by lapses in medication due to accessibility issues. The company's innovative approach, grounded in simplicity and efficiency, has been a game-changer in the telehealth industry, making it a model for others in the field.

For further information or to arrange an interview, journalists are encouraged to use the contact details provided. RefillGenie is open to discussing their journey, future plans, and the impact of their services on patient health and wellbeing.

End of Press Release.
