

Elite Swiss Made Mandibular Advancement Device Receives FDA Clearance

SnoreLessNow receives 510(k) clearance on a new best-in-class snoring solution.

ELLICOTT CITY, MARYLAND, UNITED STATES, January 23, 2024 /EINPresswire.com/ -- SnoreLessNow is bringing Switzerland's most advanced over-the-counter snoring solution to the United States.

The Maryland-based company's Anti-Snore Mouth Guard+ will be available for purchase on SnoreLessNow's website in March 2024 through a partnership with leading Swiss manufacturer Oscimed SA. Initially, only a limited stock of 10,000 mouthguards will be available. [Be the first to own it](#) by signing up for the email newsletter at [SnoreLessNow.com](#).

Known as the SomnoFit-S® in Europe, the Anti-Snore Mouth Guard+ is a small dental appliance that reduces snoring by positioning the jaw gently forward, allowing the perfect opening for increased airflow and eliminating airway obstruction by tissues inside the mouth. No masks, hoses, or electronics are required.

The Anti-snore Mouth Guard+ uses a patented adjustment band that helps the jaw to move freely, allowing talking and drinking with the device on. The same band spans across the front teeth distributing tension more evenly to achieve maximum comfort and effectiveness.

Produced in the Jura region of Switzerland known for Rolex production, the material is made of high-quality Swiss biomedical polymers and uses up to 40% less materials than other mandibular advancement devices on the US market. This makes it more comfortable, flexible, and discreet to wear.

It uses a simple molding method of being placed in hot water to create a perfect customizable fit for the user. It can even be remolded more than once if the perfect fit is not achieved the first

The advertisement features a dark blue background with a white, 3D-rendered Anti-Snore Mouth Guard+ device. The device is a mandibular advancement device with a central band and two side pieces. A red Swiss flag logo with the text "SWISS MADE" is positioned to the right of the device. Above the device, the text "FDA CLEARED" is in a blue box. Below the device, the text "ANTI-SNORE MOUTH GUARD+" is in large white letters. At the bottom, the text "New best-in-class mandibular advancement device." is in white. A small circular logo with the text "SNORE LESS NOW" is also present.
