eLogs Plus \$19.99/mo No hardware cost, No Contract, Lifetime Warranty

ETA Track Plus is thrilled to announce the introduction of eLogs Plus, a groundbreaking solution that has been serving the industry since 2017. A state-of-the-art Electronic Logging Device (ELD) solution tailored for the vibrant trucking operations in Dallas, Texas. As the Federal Motor Carrier Safety Administration (FMCSA) mandates the monitoring of working hours for anyone operating a commercial motor vehicle (CMV) with a commercial driver's license (CDL) in the United States, eLogs Plus emerges as the ultimate solution to ensure compliance, streamline operations, and enhance safety.

“

As the owner of ETA Track Plus, I'm proud of eLogs Plus – an ELD solution providing efficiency, safety, and cost-effectiveness for trucking operations since 2017.”

Randy Safford

Simplifying trucking operations is achieved through the advanced Truck [Driver Log Book](#) solution, ensuring accurate and compliant recording of driver activities. The Driver Logs solution enhances fleet record-keeping, tracking driving hours, duty status, and rest breaks with precision, ensuring accuracy and compliance with industry regulations.

Understanding the FMCSA Mandate

The FMCSA requires a robust system to monitor the working hours of individuals operating CMVs as part of a business engaged in interstate commerce. Aimed at eliminating accidents caused by driver fatigue, the mandate determines the maximum consecutive hours a commercial truck driver or other CMV operators can drive or work before taking a mandatory rest break. Under the ELD mandate, initiated in December 2017, operators are required to use electronic logging devices (ELD) and to track Hours of Service (HOS).

Navigate seamlessly through FMCSA HOS regulations with our comprehensive solutions. Stay compliant, enhance safety, and simplify fleet management with our expertly designed tools.

eLogs Plus: Leading the Way

Leading companies trust eLogs Plus for their fleets, thanks to its lightning-fast setup at a budget-friendly price. The plug-and-play feature ensures effortless implementation with no special installation requirements, making it an ideal solution for trucking operations.

eLogs Plus by ETA Track Plus - Key Features:

Priced At Just \$19.99 A Month: Our ELD comes with Electronic Control Module (ECM) Hardware, and there are no additional hardware costs.

FMCSA Compliant: eLogs Plus ensures compliance with FMCSA regulations, providing a reliable way to collect HOS data.

Lifetime Warranty: What sets us apart is our commitment to compliance, backed by a lifetime

An ELD solution for trucking operations since 2017

warranty for our device.

Effortless Management of Trucking Operations

With eLogs Plus, trucking operations can efficiently manage and optimize their activities. This go-to solution for accurate and compliant Driver Log Books is tailored to meet not only hours of service (HOS) regulations but also the specific needs of trucking operations.

Adhering to Commercial Driver Hours regulations is paramount for the safety and well-being of drivers and the public. Our solutions provide essential tools to ensure compliance and safe driving practices within the framework of industry regulations.

eLogs Plus Benefits:

Improved Accuracy: The system ensures accurate recording of driving time, on-duty time, off-duty time, and rest breaks.

Real-time Tracking: Utilizing GPS technology, eLogs Plus provides real-time tracking of vehicles, aiding in accurate calculation of driving time and location.

Reduced Paperwork: Say goodbye to traditional logbooks and embrace a paperless solution that streamlines driver's record-keeping.

Data Accessibility: Both drivers and law enforcement authorities have access to the data stored on eLogs Plus, facilitating verification of compliance with HOS regulations.

Automated Recording: The system automatically records and categorizes a driver's activities, switching between driving, on-duty, and off-duty status based on vehicle movement.

Alerts and Warnings: eLogs Plus provides alerts and warnings to drivers approaching their maximum allowable driving time, ensuring legal limits are maintained.

FMCSA Mandate and Market Entry

It is important to note that the mandate for Electronic Logging Devices (ELD) was initiated by the Federal Motor Carrier Safety Administration (FMCSA) in December 2017. eLogs, certified and entering the market in September 2017, emerged as a pioneering solution ahead of the regulatory deadline, showcasing our commitment to providing advanced and compliant ELD solutions.

Why Choose eLogs Plus?

eLogs Plus provides a user-friendly platform that is simple to use yet powerful enough for fleets

of any size. Discover the advantages of our eLog system, including enhanced accuracy, reduced paperwork, real-time tracking, and automated recording.
