Decaffeinated roasted coffee refers to ordinary coffee that has most of its caffeine removed. This coffee is used by people who don't want to consume caffeine but still want to drink coffee.

The main forms of decaffeinated roasted coffee are whole, ground, and others. Ground coffee is roasted coffee beans that have been ground down to be brewed for coffee. The various distribution channels involved supermarkets and hypermarkets, specialty stores, online retail, and others, that are used by retail/household and food service.
