

The X90 UPS family is now available up to 700kW with the new X90-10S

Mission critical availability with scalable, modular, high density X90-10S for 50kW to 700kW applications

DENVER, COLORADO, UNITED STATES, January 24, 2024 /EINPresswire.com/ -- [Xtreme Power](#), a leading provider of cutting-edge power protection solutions, proudly announces the launch of its revolutionary [X90-10S](#) 480V Uninterruptible Power System (UPS). This innovative solution not only ensures reliable and cost-effective power protection but also boasts a remarkable 50% reduction in footprint, setting a new standard in the industry.

The X90-10S UPS is designed to be a game-changer, offering unparalleled efficiency, scalability, and ease of deployment. Jim Beiersdorff, Xtreme Power's Director of Engineering, expressed enthusiasm about the product, stating, "The X90-10S UPS is a breakthrough that represents the next step in power protection innovation. We're excited to provide our customers with a solution that combines reliability and cost-effectiveness, achieving up to 99% efficiency and an industry-leading footprint without compromising performance."

Key features of the X90-10S UPS include a compact 10.3 sq ft footprint, flexible cable entry from the top or bottom, and a front access-only design. Customers can choose from a range of capacities (50kW-700kW) and opt for 50kW or 70kW power modules, with the system being compatible with Lead Acid, Sodium-ion, and Lithium-ion Batteries. Optional features, including a Web/SNMP card and extended battery cabinets, provide customers with customization options. To learn more about the X90-10S UPS and its benefits, customers can schedule a demo or consultation with Xtreme Power's dedicated sales team.

About Xtreme Power: Founded in 2006, Xtreme Power specializes in delivering innovative power protection solutions for critical applications. The company manufactures Uninterruptible Power

X90-10S

Systems ranging from 200W to 700kW and power distribution units for OEM and distribution customers. Headquartered in Denver, CO, Xtreme Power also operates a customer support center in Friendship, WI, and distribution locations across the USA and Europe.
