

C3 Solutions Unveils New Features to Revolutionize Yard and Dock Management

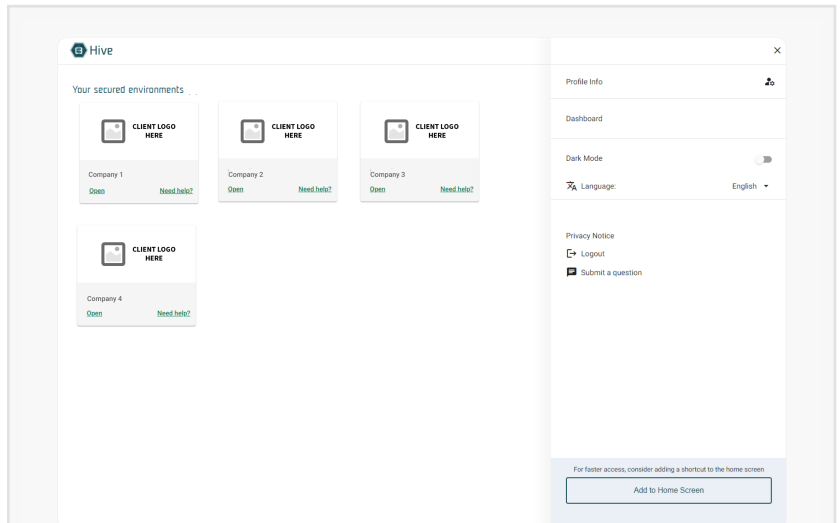

C3 Solutions releases new features to deliver an unmatched customer experience and comprehensive functionalities.

MONTREAL, QUÉBEC, CANADA, January 25, 2024 /EINPresswire.com/ -- C3 Solutions, a pioneer in providing innovative [Yard Management](#) and [Dock Scheduling](#) Solutions for the logistics industry, is proud to announce the launch of multiple groundbreaking features designed to enhance efficiency, security, and compliance in the logistics and supply chain sectors. These features released in the last six months mark significant advancements in the company's software capabilities, further establishing C3 Solutions as an innovative force in the industry.

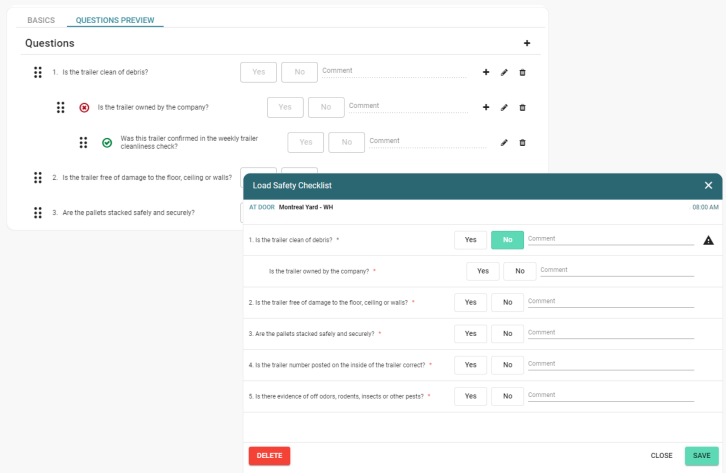

Feature 1: Onboarding / Join Request

The Challenge: Traditionally, the onboarding process for truck drivers was bogged down by manual, email-based procedures, leading to inefficiencies, data errors, and lack of autonomy for end-users.

The Solution: C3 Solutions introduces an invitation-based system enabling users to create their C3 account through a unified login portal. This feature allows drivers to request to join a shipper's C3 portal,

Where Real-Time Visibility Meets Powerful Yard and Dock Management

C3 Audit Module offers comprehensive functionalities, including sub-questions, audit flow control, and detailed tracking of faults on purchase orders and line items.

This feature allows drivers to request to join a shipper's C3 portal,

streamlining the account creation process.

The Benefits:

- Time Savings: Truck drivers can complete the onboarding process quickly and effortlessly online, reducing the need for paperwork and manual submissions.
- Accessibility: A unified login system allows easy access to the portal, enabling drivers to manage their profiles and access facility-related information from anywhere.
- Security: Enhanced authentication processes and data protection measures ensure the safety and confidentiality of personal information.

Feature 2: Audit Module

The Challenge: As the supply chain environment grows more complex, the need for a detailed audit system within our dock scheduling software has become increasingly evident.

The Solution: The Audit Module offers comprehensive functionalities, including sub-questions, audit flow control, and detailed tracking of faults on purchase orders and line items.

The Benefits:

- Risk Mitigation: Early identification and resolution of potential risks and issues within the scheduling process.
 - Cost Savings: Prevention of costly errors through early detection of faults, leading to operational efficiency and potential refunds.
 - Regulatory Compliance: Ensures operations comply with industry standards and regulations.
- Enhanced Accountability: Transparent record-keeping for better tracking and assignment of responsibilities.

C3 Solutions remains committed to delivering innovative solutions that address the evolving needs of the logistics and supply chain industry. These new features are a testament to the company's dedication to improving operational efficiency, security, and user experience.

About C3 Solutions:

C3 Solutions is an information technology company specializing in yard management (YMS) and dock scheduling (DSS) systems. Since its founding in 2000, C3 has gained the confidence of clients worldwide and across many industries, including retail, grocery, distribution, manufacturing, and parcel post. Headquartered in Montreal (QC), Canada and privately owned, C3 develops, implements, and supports the most complete yard management and dock scheduling products on the market today. www.c3solutions.com
