

Forensic Psychiatrist Analyzes How Becky Hill Could Be Alex Murdaugh's Ticket to New Trial

LOS ANGELES, CALIFORNIA, UNITED STATES, January 26, 2024 /EINPresswire.com/ -- "Alex Murdaugh may have found his 'get out of jail free' card in the likes of Rebecca Hill, the Clerk of Court during his double murder trial, The State of South Carolina v. Richard Alexander Murdaugh," cautions [Forensic Psychiatrist](#) and Trial Expert, Witness Carole Lieberman, M.D., M.P.H.

(www.expertwitnessforensicpsychiatrist.com).

"Murdaugh's attorneys are going full blast in their attempts to overturn his conviction, and Becky Hill is under two investigations for allegations concerning her interactions with the jury and using her elected position for personal gain."

Dr. Lieberman's latest Inside The Criminal Mind column, is called, "Could Becky Hill Be Alex Murdaugh's Ticket to New Trial?" Her columns, in [Front Page Detectives](#), analyze the top cases, criminals and trials of today's news - from Prince Andrew to Johnny Depp to Bryan Kohberger, Murdaugh and many others.

Dr. Lieberman read Rebecca Hill's now-controversial book, Behind the Doors of Justice: The Murdaugh Murders and analyzed it, in view of the current allegations against her. "Becky expected this book to open doors for her to become a bestselling author of many books. Instead, it's destroying her life. She's accused of trying to sway the jury against Alex Murdaugh, but ironically, if his defense attorneys can prove their allegations of jury tampering, she will become his ticket to a new trial."

Dr. Lieberman's analyses come from training in Forensic Psychiatry at Bellevue in NYC, the quintessential place where the most notorious criminals are sent, and experience working as a trial expert witness on hundreds of criminal (and civil) cases - from rapists to robbers, and murderers to madmen.
