Orchestry (<https://www.orchestry.com>),

is a complete empowerment, adoption and standardization platform, built by Microsoft 365 MVPs for IT Administrators with Microsoft 365 end-users in mind. Orchestry is on a mission to make work simple in Microsoft 365, empower users, drive adoption, automate [governance](#), day-to-day management and security.

“

Orchestry addresses 2 chronic pain-points associated with Microsoft 365: governance and adoption, and we're thrilled to offer it to customers now to get their Microsoft 365 content under control!"

Drew Keenan, CEO of Total Calibration

The Orchestry platform takes the guesswork out of what to use and when in Microsoft 365 (formerly Office 365) with pre-built Workspace [Templates](#), intelligent Workspace Provisioning, actionable Workspace Insights, robust Microsoft 365 [Guest Management](#), informative Workspace Directory and robust governance features to enable both IT administrators and end-users throughout the organization.

Total Calibration (www.totalcalibration.com.au) will add Orchestry to its suite of tools to help customers organise,

protect and govern content in Microsoft 365 while boosting user adoption and productivity.

With a shared passion for client success through digital transformation, the partnership will enable Total Calibration to deliver wins in Microsoft 365 governance and provisioning to their

clients on the Orchestra platform.

Michal Pisarek, CEO of Orchestra, shares, "After knowing and collaborating with the team at Total Calibration for years, I'm elated to announce our partnership to empower clients to standardise governance, provisioning and templating in Microsoft 365".

More than just a standard templating and governance tool for Microsoft

Teams, Orchestra's comprehensive platform will enable Total Calibration to support clients with governance in SharePoint Online, Microsoft Planner, Microsoft Lists, Microsoft OneNote as well as other Microsoft 365 business applications through a single, unified interface.

"Orchestra addresses 2 chronic pain-points associated with Microsoft 365: governance and adoption, and we're thrilled to now offer it to customers to get their Microsoft 365 content under control and allow users to find content easily," exclaims Drew Keenan, CEO of Total Calibration.

In partnership, Total Calibration and Orchestra, help organisations drive enablement, adoption and standardisation while helping integrity and governance of Microsoft 365.
