The growth in the bioprocess containers market is due to rising biopharmaceutical R&D (research and development) activities. North America region is expected to hold the largest bioprocess containers market share. Major players in the bioprocess containers market include Sartorius Stedim Biotech S.A., Thermo Fisher Scientific Inc., Danaher Corporation, Merck KGaA, Sartorius AG, Compagnie de Saint-Gobain S.A.

[Bioprocess Containers Market Segments](#)

- By Type: 2D Bioprocess Containers, 3D Bioprocess Containers, Tank Liners, Other Containers & Accessories
- By Application: Process Development, Upstream, Downstream
- By End User: Biopharmaceutical Companies, Life Science R&D Companies, Other End Users
- By Geography: The global bioprocess containers market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Bioprocess containers are single-use containers that are used for critical sterile liquid-handling applications in the biopharmaceutical industry. It is used for liquid cell culture media, reagents, buffers, containment, and storage vessels for intermediate and final products yielded from manufacturing processes.

The main types of bioprocess containers include 2D bioprocess containers, 3D bioprocess containers, tank liners, and other containers and accessories. The 2D bioprocess container refers to bioprocess containers with a two-dimensional design for sterile liquid handling. They are designed for small, simple BPCs from 50 ML to 50 L. It is produced from two sheets of film, heat-sealed around the perimeter to form a pillow-shaped chamber. These containers are used in biopharmaceutical companies, life science R&D companies, and others for upstream & downstream process, and product development applications.
