"As a company that believes completely in secure technology through the blockchain, we are excited to partner and launch the first title with IT Governance Publishing," said Joshua Stone, Book.io CEO and Co-Founder. "Their catalog will be a vital knowledge base for our customers and worldwide organizations to access on Book.io."

The author of the "Cyber Security Handbook," Alan Calder, is an International cyber security expert and leading author on information security and IT governance issues.

"I strongly believe that blockchain technology solves many problems in the growing digital world we live in, but the one in particular that Book.io solves is digital ownership," said Andreas Chrysostomou, IT Governance Publishing Relations Manager. "With digital ownership a concept not adopted by the masses yet, I think it is vital that we take steps now to be available in this

format, so we are ready for this change."

"The Cyber Security Handbook" will be available for purchase on Book.io on Tuesday, January 30 at 3 p.m. EST.
