

# Invoice Factoring Market Thriving: Expected to Reach \$4,618.9 Billion by 2031 with a 9.4% CAGR

*Invoice Factoring Market Thriving:  
Expected to Reach \$4,618.9 Billion by  
2031 with a 9.4% CAGR*

NEW CASTLE, DELAWARE, UNITED STATES, February 1, 2024 /EINPresswire.com/ -- Invoice factoring can assist business owners in overcoming the time between the creation of an invoice and the actual payment by the client. Moreover, invoice factoring is an alternative form of financing that is available to businesses that may not have an established banking record with a major lender.

According to a new report published by Allied Market Research, titled, "[Invoice Factoring Market](https://www.alliedmarketresearch.com/request-sample/15720)," The invoice factoring market was valued at \$1946.51 billion in 2021, and is estimated to reach \$4618.9 billion by 2031, growing at a CAGR of 9.4% from 2022 to 2031.

Furthermore, major market players are undertaking various strategies to increase the competition and offer enhance services to their customers. For instance, in July 2020, American Express and SAP Concur recently announced two digital integrations to help businesses streamline and automate invoicing and expenses. This first offering is an integration that allows American Express Business and Corporate Card customers to integrate with Concur Invoice. This tool uses machine learning to capture both digital and paper invoices. And then it integrates them into a single system.

The global invoice factoring market is analyzed across segments such as type, application, enterprise size, provider, industry vertical, and region. The report takes in an exhaustive analysis

of segments and their sub-segments with the help of tabular and graphical representation. Investors and market players can benefit from the breakdown and devise stratagems based on the highest revenue-generating and fastest-growing segments stated in the report.

Based on type, the resource factoring segment contributed to nearly three-fourths of the global market revenue in 2021, and is expected to dominate by 2031. The same segment would also showcase the fastest CAGR of 10.3% throughout the forecast period. The non resource factoring segment is also discussed in the study.

By application, domestic segment garnered the highest share in 2021, generating more than four-fifths of the global market. The international segment, on the other hand, would project the fastest CAGR of 12.8% from 2022 to 2031.
