

# Ward PH&A's Oldest HVAC System Contest

*Ward Plumbing, Heating, and Air  
Launches Contest to Find Western North  
Carolina's Oldest Working HVAC System*

SYLVA, NORTH CAROLINA, UNITED  
STATES, January 31, 2024

/EINPresswire.com/ -- Ward Plumbing, Heating, and Air has announced an exciting contest to locate the oldest functioning HVAC System still heating a home in the Western North Carolina area. If a home relies on an ancient HVAC system from 2004 or earlier, you could win a brand-new replacement unit.

"The oldest one still working wins a free installation of a modern, efficient HVAC System," said Brad Waldrop, General Manager of Ward Plumbing, Heating and Air.

Ward PH&A's logo

To enter, simply provide information on the existing unit like the brand, model, and approximate age. Ward's team of HVAC experts will thoroughly review entries and schedule in-home visits with finalists to validate HVAC System ages. The owner of the oldest functioning HVAC System will receive a full unit replacement free of charge.

“

We are challenging local homeowners to dig through their records and submit their HVAC System's details if they have a relic from the past still warming their house.”

*Brad Waldrop*

Imagine going from an inefficient energy hog to a state-of-the-art HVAC System with advanced comfort features and potential savings of 30% or more on heating bills. That's what the lucky winner can look forward to.

Western North Carolina homeowners are encouraged to take a couple of minutes to complete the online entry form if they have a 20+ year-old HVAC System that somehow still provides heat. Full details are available at

<https://www.wardph.com/oldesthvaccontest/>. Submissions must be received by February 29, 2024.

About Ward Plumbing, Heating, and Air:

Ward Plumbing, Heating, and Air has provided reliable HVAC and plumbing services to Western North Carolina homeowners since 1977. Their skilled technicians have the expertise to accurately determine HVAC System ages and operate legacy heating equipment.

Visit <https://www.wardph.com/oldesthvaccontest/> for official rules and the contest entry form. Give your old HVAC System a shot at a well-deserved retirement!
