

Solara Labs Attains FSSC 22000 Certification, Reinforcing Commitment to Global Food Safety Standards

Solara Labs proudly announces its FSSC 22000 certification, a global standard endorsed by the Global Food Safety Initiative.

MIAMI GARDENS, FL, UNITED STATES, January 31, 2024 /EINPresswire.com/ -- Solara Labs, a leading nutraceutical company headquartered in South Florida, proudly announces that it has attained FSSC 22000 certification. This certification is a globally-recognized standard endorsed by

the Global Food Safety Initiative (GFSI) that simultaneously meets key standards of ISO 22000 and ISO 9001. The achievement is a testament to Solara Labs' commitment to maintaining the highest quality standards in the production of dietary supplements.

“

The certification is a testament to our commitment to the highest standards of safety in our products. At Solara Labs, we emphasize a comprehensive approach that extends beyond global benchmarks.”

Alan Bonfil, Scientific and Regulatory Affairs, QA/QC

"Our team at Solara Labs is thrilled to have achieved FSSC 22000 certification, a recognition that underscores our dedication to delivering products of the utmost quality and safety to our customers worldwide," says Dr. Jose Rocca, President and CEO of Solara Labs. "This accomplishment is a result of years of hard work, a commitment to continuous improvement, and a continued focus on

meeting and exceeding the stringent global food safety standards."

FSSC 22000 certification not only demonstrates Solara Labs' commitment to manufacturing excellence, but also positions the company as an industry leader dedicated to quality and transparency to its customers. The company's partners can now have even greater confidence in Solara Labs' products knowing that they are manufactured in compliance with one of the most respected and rigorous food safety standards globally.

As Solara Labs looks towards the future, this milestone serves as a foundation for continued growth and innovation. The company remains steadfast in its mission to improve the health and well-being of individuals through the development and production of high-quality dietary

supplements.
