Company*

The growth in the additive manufacturing market is due to the increasing demand for 3D printing. North America region is expected to hold the largest [additive manufacturing market share](#). Major players in the additive manufacturing market include General Electric Company, ANSYS Inc., Höganäs AB, Greatbatch Inc., Renishaw PLC, Arburg GmbH + Co KG, Stratasys Ltd., EOS GmbH.

[Additive Manufacturing Market Segments](#)

- By Technology: Stereolithography, Polyjet Printing, Binder Jetting Printing, Laser Sintering, Electron Beam Melting, Fused Deposition Modeling, Laminated Object Manufacturing, Thermal Dimensional Printing, Other Technologies
- By Material Type: Plastics, Metals, Ceramics, Other Materials
- By Application: Aerospace, Automotive, Consumer Products, Healthcare, Government And Defense, Industrial Or Business Machines, Education And Research, Other Applications
- By Geography: The global additive manufacturing market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Additive manufacturing refers to the method of combining materials to create three-dimensional items using three-dimensional (3D) model data. Layer after layer is added in additive manufacturing till the product is finished. The majority of the time, additive manufacturing employs only the materials required for the component, drastically reducing production waste.
