Emerging nations are expected to provide major opportunities for the beer market during the forecast period. The rise in acceptance of beer consumption and surge in popularity of beer for special occasions are expected to stimulate the market growth in emerging nations such as China, Canada, and Germany. Moreover, rise in social media is becoming the latest beer market trends in developed countries as it is taking lifestyle of millennials and Gen Z toward spending more on premium products, which is likely to open new avenues for the market participants to enter emerging markets.

Moreover, due to the outbreak of the COVID-19 pandemic, manufacturers have increased social media advertisement of using herbal skin care products to reach a large consumer base. However, implementation of lockdown and curfew practices globally is affecting the domestic as well as international production of skin care products, which in turn, hampers the growth of the overall market. Thus, the outbreak of COVID-19 has negatively impacted the Beer market in 2020, as sales of companies have reduced and operations have been halted.

Numerous manufacturers are indulge in producing of strong and flavorful beer across the globe. Moreover, the flavors such as honey-flavored, tart & funky, sour, fruit & spicy, malty & sweet flavors has attracted large number of customer base. Furthermore, the continuous innovation in the ingredient, flavor and packaging of beer has increasingly appealed to the customer worldwide. In addition, easy availability of flavored beer in bars, restaurant, wine shops and other has further boosted the beer market growth. Increasing youth interest towards flavored and strong beer across all the region is further expected to boost the market.
