The Rogers & Andrews Orthodontics team has over 100 years of experience, and Dr. Andrews recently celebrated his 17-year anniversary with the practice! The whole team is known for providing exceptional care and creating a positive experience at every visit.

Giving Back to the Community

Last year, the practice donated toys to the Christmas House. This helped several local families provide gifts for their children during the holidays. They have also supported their local Girl Scouts since 2014 as well as organized art contests for local elementary schools.

The team also hosted a booth with Kid Jam, an exciting one-day kid expo that brings kids,

parents and community members together. Rogers & Andrews Orthodontics is always looking for ways to support and give back to the community.

Using the Latest Technologies
Rogers & Andrews Orthodontics is a digital orthodontic practice. They utilize iTero® intraoral scanners, digital x-rays and 3D technology.

The practice is also proud to announce that the Grovetown team is growing, adding two new team members in its first year! Roxanne is their new Insurance Coordinator, and Ariel is their new Orthodontic Assistant.
