

Home Plans, LLC Unveils Game-Changer in Housing: The Eco-Smart, Cost-Efficient Quinn Barndominium Kit

The Quinn is an affordable 924 sq foot home kit with two bedrooms and two bathrooms that is ready to assemble.

FRISCO, TX, USA, February 3, 2024 /EINPresswire.com/ -- Home Plans, LLC and MyBarndoPlans.com, a leader in innovative housing solutions, is excited to announce the launch of its new affordable housing option – the "Quinn" Home Kit is a single-story home kit, meticulously engineered in cold-formed steel, is designed to bring the dream of homeownership within reach for more Americans.

The Quinn Affordable Home Kit

About [the Affordable Quinn Home Kit](#)

“

This beautiful little home is perfect to put on our property for my aging parents to be close to us.”

Catherine Pitts

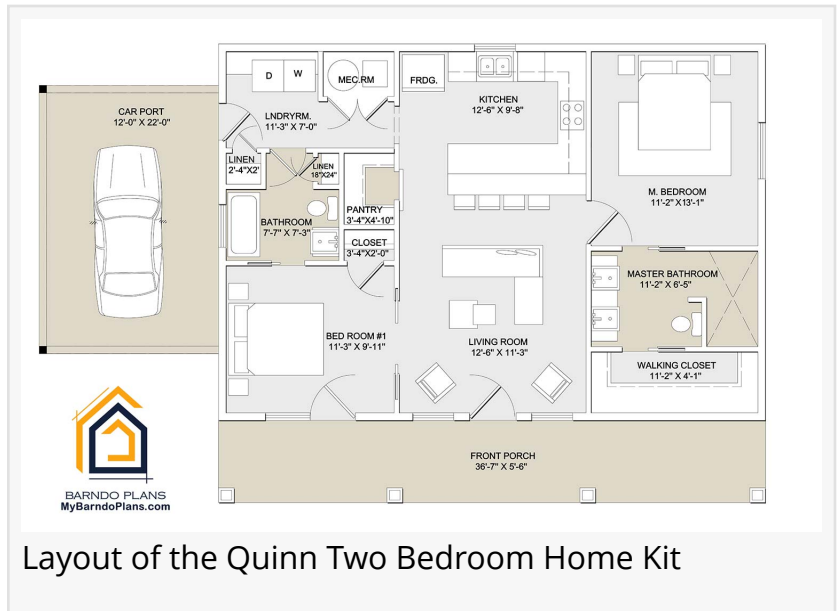

The Quinn features a compact yet highly efficient 30x50 floor plan, encompassing 924 square feet of comfortable living space. The layout includes an extra-large master suite, [two bedrooms, two bathrooms, and an open floor plan](#) that maximizes usable space. Unique to this model is the inclusion of a carport, offering an attractive alternative to a traditional garage.

Designed with great curb appeal in mind, the Quinn is affordable and customizable to meet individual preferences and needs. The kit includes optional siding, roofing, windows, and doors, allowing homeowners to personalize their space.

Sustainable Building Materials Make The Quinn Affordable and Smart for The Environment.

Incorporating sustainability into its design, the Quinn Barndominium Home Kit represents a

significant advancement in eco-friendly construction practices. The use of cold-formed steel, a core component of the kit, is a testament to this commitment. Cold-formed steel is not only strong and durable, reducing the need for frequent repairs or replacements, but it is also highly recyclable. This reduces the environmental footprint of the building process significantly. Furthermore, the precision engineering involved in creating these steel components ensures minimal waste during construction. The steel's lightweight nature also contributes to reduced transportation emissions, further enhancing the environmental benefits. By choosing cold-formed steel, My Barndo Plans underscores its dedication to promoting sustainable building practices that are crucial for a greener future in housing.

Layout of the Quinn Two Bedroom Home Kit

Ease of Construction and Completion

A standout feature of the Quinn Barndominium is its ease of erection. The home kit is designed for straightforward assembly, making it an ideal choice for those looking to expedite the building process. Once erected and closed off, the structure is 60% complete and ready for wiring, plumbing, and final touches.

Adaptability Across the USA

Recognizing the diverse climate and geographical challenges across the lower 48 states, the Quinn Barndominium has been engineered for adaptability. Small structural modifications are available to accommodate areas with high snowfall, ensuring durability and safety regardless of location. The engineered plans can be stamped to meet local code requirements by our engineers.

Affordable Pricing

The Quinn Barndominium redefines affordability in home construction. The home plan is priced at a modest \$650, with the 60% complete [Cold-Formed Steel Kit](#) available for \$55,000. This pricing strategy aligns with MyBarndoPlans.com's commitment to making quality housing accessible to a broader demographic.
