

Chewmate™ Launches the Patented TreatBrush™ Toothbrush Toy for Dogs In Conjunction with National Pet Dental Health Month

MIAMI, FL, USA, February 6, 2024 /EINPresswire.com/ -- Chewmate™ launches the <u>TreatBrush</u>™ and disrupts the pet oral care industry with the first and only natural rubber self-brushing floss and toothbrush toy for dogs. Developed after four years of R&D by a team of dental experts, vets, and pet enthusiasts, the Chewmate TreatBrush is set to completely transform the way pet owners care for their furry friends' oral hygiene by making it easy and fun for both pets and their parents. The product launch timing is perfect, as the AVMA gets ready to sponsor Pet Dental Health Month in February.

80% of dogs over the age of three have some form of gum disease, according to the American Veterinary Dental Society. Dental disease is one of the most prevalent diseases causing needless pain, misery and expense because dental disease is almost completely preventable with good oral hygiene.

"We understand that most dogs hate to have their teeth brushed and the challenges and costs pet owners face when it comes to maintaining their dog's oral health," said world-renowned dentist and Chewmate co-founder, Dr. Allan Coopersmith and hygienist wife Nathalie Fiset. "That's why we created TreatBrush, a one-of-a-kind toothbrush toy that allows dogs to brush and floss their own teeth while playing. Our goal is to make dental care easy, effective, and fun for pets."

The Chewmate TreatBrush features a unique and patented design that combines a toothbrush, floss, treat, and a toy, making it irresistible to dogs. The natural rubber bristles and specially designed tooth shaped "Floss Slots" ensure a thorough cleaning, reaching every nook and cranny of a dog's teeth and gums, all the way to the gum line. Simply insert a dog's favorite treat (or a
