

# Crawler Crane Market Expected to Hit a Valuation of US\$ 5.2 Billion, With a CAGR of 6% During 2024-2032

BROOKLYN, NEW YORK, USA, February 6, 2024 /EINPresswire.com/ --

According to IMARC Group's latest research report, titled "Crawler Crane Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2024-2032," offers a comprehensive analysis of the industry, which comprises insights on the crawler crane market report. The report also includes competitor and regional analysis, and contemporary advancements in the market. The [global crawler crane market size reached US\\$ 3.1 Billion in 2023](#).

Looking forward, IMARC Group expects the market to reach US\$ 5.2 Billion by 2032, exhibiting a growth rate (CAGR) of 6% during 2024-2032.

Factors Affecting the Growth of the Crawler Crane Industry:

- Infrastructure Development and Construction Projects:

The growth of the crawler crane market is significantly driven by the global surge in infrastructure development and large-scale construction projects. Crawler cranes, with their ability to handle heavy loads and navigate challenging terrains, are essential for tasks such as lifting and placing heavy materials in construction sites, bridges, and other major infrastructure projects. The increasing demand for new and upgraded infrastructure worldwide fuels the need for crawler cranes, contributing to market expansion.

- Growing Offshore Wind Energy Installations:

The rise in offshore wind energy projects is a key driver for the crawler crane market. Crawler cranes are integral for the installation of wind turbines in offshore environments, where stability and mobility are critical. As the world transitions to cleaner energy sources, the demand for crawler cranes in the installation and maintenance of offshore wind farms continues to grow, bolstering market growth.

- Technological Advancements and Enhanced Capabilities:

Technological innovations in crawler crane design and capabilities contribute to market growth. Manufacturers are incorporating advanced features such as telematics, automation, and improved load monitoring systems, enhancing the efficiency and safety of crawler crane operations. The integration of innovative technologies attracts industries seeking more productive and safer lifting solutions, driving the adoption of crawler cranes across diverse sectors and regions.

#### Global Crawler Crane Market Trends:

The crawler crane market is witnessing transformative trends that underscore the industry's evolution. Firstly, there's a notable emphasis on sustainability and energy efficiency. Manufacturers are developing crawler cranes with advanced hybrid and electric propulsion systems, aligning with global initiatives for greener construction practices. This trend reflects a growing awareness of environmental impact and a commitment to reducing the carbon footprint in heavy lifting operations. Secondly, the integration of digital technologies is becoming a standard practice. Telematics, IoT connectivity, and data analytics are being employed to enhance crane performance, provide real-time monitoring, and facilitate predictive maintenance. This digitalization trend not only improves operational efficiency but also contributes to safer and more reliable crawler crane operations.

Moreover, there's a growing demand for versatile and compact crawler cranes. Industries, including urban construction and infrastructure projects with space constraints, are seeking crawler cranes that offer high lifting capacities while maintaining a smaller footprint. This trend reflects the need for flexibility and adaptability in various construction environments, driving innovations in crawler crane design and functionality.

#### Competitive Landscape with Key Players:

- Hitachi Sumitomo Heavy Industries Construction Crane Co. Ltd.
- Kato Works Co Ltd

- Kobe Steel Ltd
- Liebherr-International Deutschland GmbH
- Sany Group
- Sennebogen Erich Holding GmbH & Co. KG
- Tadano Ltd.
- Terex Corporation
- The Manitowoc Company Inc.
- XCMG Group
- Zoomlion Heavy Industry Science & Technology Co. Ltd.

#### Crawler Crane Market Report Segmentation:

##### By Type:

- Lattice Boom Crawler Cranes
- Telescopic Boom Crawler Cranes

Telescopic boom crawler cranes dominate the market due to their versatility and widespread use in various applications.

##### By Capacity:

- Below 50 Metric Tons
- 50 to 250 Metric Tons
- 250 to 450 Metric Tons
- More than 450 Metric Tons

50 to 250 metric tons account for the largest market share as this capacity range is favored for its ability to handle a diverse range of lifting tasks, making it well-suited for a broad spectrum of construction and industrial applications.

##### By End User:

- Construction and Mining
- Oil and Gas
- Transport
- Utility
- Manufacturing
- Others

The construction and mining sector represents the largest market segment due to the critical role of these cranes in heavy lifting, material handling, and construction activities.

## Regional Insights:

- North America (United States, Canada)
- Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)
- Europe (Germany, France, United Kingdom, Italy, Spain, Others)
- Latin America (Brazil, Mexico, Others)
- Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Other)

Asia Pacific's dominance in the market is due to the region's robust growth in construction and infrastructure projects.

## Who we are:

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.
