

AESUS Packaging Systems Unveils Bottle Unscrambler and Sorting Technology to the Packaging Industry

This new technology promises to enhance operational efficiency, reduce manual labor, and ensure a high level of precision sorting and orienting of bottles.

MONTREAL, CANADA, February 6, 2024 /EINPresswire.com/ -- AESUS Packaging Systems, a leader in the packaging equipment manufacturing industry, today introduced its [bottle unscrambling](#) and sorting technology. Tailored to meet the rigorous demands of the food, beverage, pharmaceutical, nutraceutical, pet food, vitamin, and chemical manufacturing industries, the Aesus [Bottle Descrambler](#) offers unparalleled efficiency, reliability, and customization.

The technology distinguishes itself with capabilities to handle a wide range of container shapes and sizes, from round to square, and materials including PET and HDPE. Designed for rapid changeovers, the [bottle unscrambler](#) boasts a large infeed hopper, enclosed frame with safety features, and built-in scales for fast setup adjustments. It achieves speeds of 80 to 200 bottles per minute, catering to production lines of all capacities.

Key Benefits Include:

- **Enhanced Efficiency:** The unscrambler's high-throughput capability is designed to keep pace with fast-moving sectors, ensuring operational consistency with minimal downtime.
- **Automated Operation:** By eliminating the need for manual bottle placement, it significantly reduces labor costs, allowing for reallocation of workforce resources.

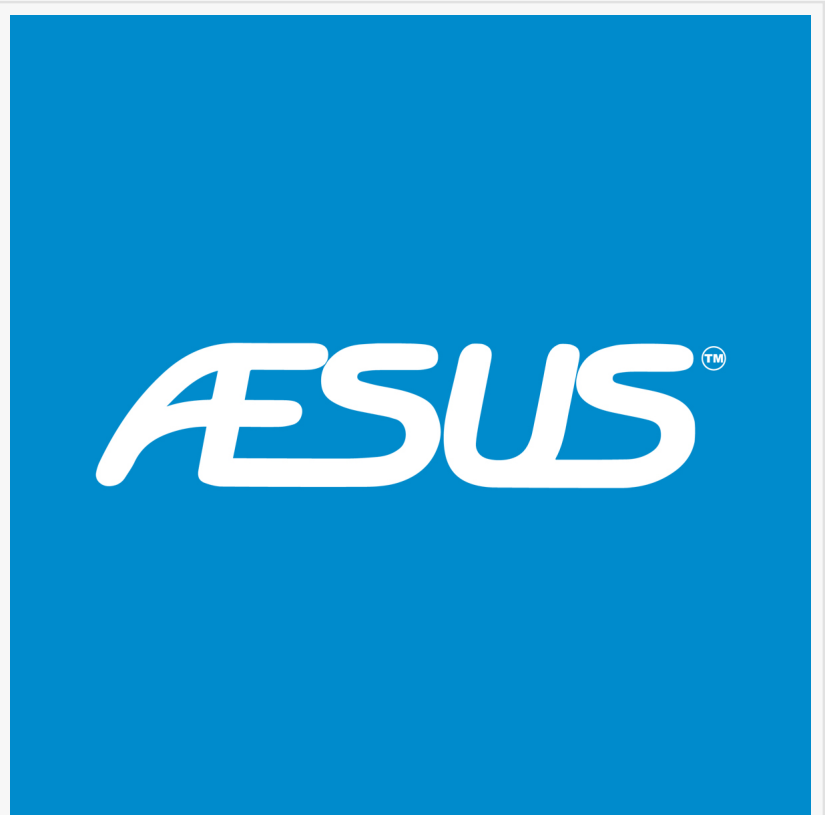

Bottle unscramblers are very popular machines to start packaging lines on the pharmaceutical, cosmetic, and other plastic containers.

- Precision and Reliability: Advanced technology guarantees precision in every cycle, addressing industry bottlenecks.
- Customizable Solutions: Tailored to overcome specific challenges, including operational inefficiencies and compliance complexities.

Quotes for the Press: "Aesus Packaging Systems is committed to innovating solutions that drive our customers' success," said Samantha Lewis, President & CEO, at AESUS. "The Aesus Bottle Unscrambler is more than a machine; it's a partner in efficiency, designed to meet the dynamic needs of modern production lines."

About AESUS Packaging Systems:
AESUS Packaging Systems has been at the forefront of packaging technology for over two decades, specializing in the design, manufacture, and service of high-quality equipment for the packaging industry. With a focus on efficiency, reliability, and innovation, AESUS serves a global clientele, providing solutions that enhance operational performance and competitiveness.
