

# InventionHome® Product Developer Creates Hair Clippers with Fun and Decorative Designs for Children

MONROEVILLE, PA, USA, February 6, 2024 /EINPresswire.com/ --

Patricia L. of Calgary, AB is the creator of the Fun Children's Hair Clippers, a unique set of hair clippers designed like a toy car. The clippers are used to cut a child's hair or groom pets, utilizing a unique and entertaining design that can help calm a child and keep them comfortable while getting their hair cut. The device is comprised of a standard hair clipper that looks like a toy car. There is a clipper mechanism integrated into the 'front bumper' area, and the wheels serve as hair clippers that cut hair as they 'drive' over the head of the child or body of the pet. The clipper body is available in several different configurations like toy cars, trains, airplanes, animals, and more. The internal motor should have a quieter sound to not scare a child or pet while getting their hair cut. Overall, the clippers give children peace of mind while getting their hair cut, improving the experience and encouraging them to relax.

The haircare, styling, and barber industry is incredibly vast, diverse, and dynamic. Numerous products and accessories contribute to a massive year-to-year economic growth for manufacturers. While several different types and styles of hair clippers are available, children may still fear getting their hair cut despite reassurances from their parents and a barber due to the nature of the tool. Certain clippers can feature decorative designs or limited-edition releases, appealing to children to help ease their anxiety, and to offer stylists a unique and custom-made design to use. Manufacturers may also be looking to produce more affordable and user-friendly options for hair clippers. The Fun Children's Hair Clippers fills several of these niches and would

be a significant product for any manufacturer to add to their product line.

Patricia filed her Utility Patent with the United States Patent and Trademark Office (USPTO) and is working closely with [InventionHome](#), a leading invention licensing firm, to sell or license the patent rights to her Fun Children's Hair Clippers product. Ideal licensing candidates would be U.S. based product manufacturers or distributors looking to further develop and distribute this product innovation.

Companies interested in the Fun Children's Hair Clippers can contact InventionHome at [member@inventionhome.com](mailto:member@inventionhome.com). Inventors currently looking for assistance in patenting, marketing, or licensing their invention can request information from InventionHome at [info@inventionhome.com](mailto:info@inventionhome.com) or by calling 1-866-844-6512.

#### About InventionHome®

InventionHome is a leading invention and product licensing firm focused on helping inventors and entrepreneurs through the invention and patent process with the goal of licensing or wholesaling client inventions.
