

# Learning Counsels 10th Annual Digital Transition Survey Awards

BENTON, AR, USA, February 8, 2024 /EINPresswire.com/ -- Learning Counsel Research recognized Cobb County School District, Georgia, Meriden School District, CT, and Calvert County Public Schools, MD with their Tech Practices Award along with many others districts during the 10th Annual Learning Leadership national virtual conference.

The event provided a briefing of the national 2023 K-12 School and District Administrator Survey on strategies, models and technology as well as the concurrent 2023 K12 Teacher Survey on pedagogy, models and technology. Learning Counsel Research received 4,912 survey responses from a send to 1,104,455 administrators and teachers. Thirty-six schools and districts received recognition awards. 28% of responses were from urban institutions, 39% from suburban, 17% from rural and 16% from others including virtual schools. The survey analysis estimates tech spend, future spend by category, and asks questions about K12's highest pressures, strategies, planning and execution, teacher workload, defining teacher and student roles, numbers of apps, pedagogical models, emergency incidents and more annually, including essays on recent achievements. The annual virtual conference and subsequent tour to twenty cities with one-day briefings presents findings for K12 schools to gain awareness of trends.

Annual survey recognitions showcase the relative achievement level of a school or district towards excellency in logistics and meaningful experiential learning fitting this century's learner needs.

Recognized in 2024 were these schools and districts:

Distinctive Excellence - St. Vrain Valley Schools, CO

Sustainers - Cobb County School District, GA; Meriden Public Schools, CT; Delphian School, OR;

Next Generation, FL

Accepting the recognition for Cobb County S.D. were:

Dr. Ehsan Kattoula, Assistant Superintendent, Accountability Division; Ms. Stacey Buckalew, Director of CTLS Academics; Meagan Stanfill, Supervisor of Digital Transformation;
