RealtyJuggler. The complete CRM solution for Real Estate Agents

"Real Estate Agents are always looking more ways to stay in touch with their client base and RealtyJuggler's eCards are a great way to do that. A CRM without this kind of content means that you would have to create it yourself. Since RealtyJuggler adds fresh content each year, there is always something new available to delight your clients." explained Frank Larnerd, RealtyJuggler Support Engineer. He went on to say: "Wishing someone a Happy Holiday or sending them a personal greeting card on their special day is a great way to keep top-of-mind with your sphere of influence, especially with a fun animated GIF image."

The eCards are just one part of the libraries of content available to RealtyJuggler members. RealtyJuggler's prewritten individual business letters and drip sequences target the specific needs of potential buyers and sellers as well as active clients. The main library of letters is available in English as well as Spanish. These letters can be customized and sent as emails or printed and sent via postal mail.

RealtyJuggler also provides a large, easy-to-edit flyer library which can be used in print, as social media posts or sent by email or in SMS text message.
