

# CIO Landing Recognized on CRN's 2024 MSP 500 List

*CIO Landing secures a spot in CRN MSP 500 list for 2nd year, affirming leadership in cybersecurity.*

NORTHFIELD, IL, UNITED STATES, February 12, 2024 /EINPresswire.com/ -- CIO Landing announced today that CRN®, a brand of The Channel Company, has named CIO Landing to its Managed Service Provider (MSP) 500 list in the Security 100 category for 2024.

I'm incredibly proud of our team for maintaining the high standards of service and innovation that this recognition represents."

*Juan Carlos Bosacoma*

The MSP 500 list compiled by CRN serves as a comprehensive guide to identifying and recognizing the top Managed Service Providers (MSPs) in North America. MSPs are crucial in supporting businesses by offering managed services that enhance efficiency, simplify IT solutions, and optimize return on investment.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on- and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

CIO Landing's dedication to cybersecurity excellence is evident in its deployment of cutting-edge technologies, its adherence to best practices in compliance and data protection, and its proactive stance on threat detection and response. The company's innovative strategies and tailored security services, designed to meet the specific needs of businesses in today's complex digital environment, demonstrate a deep understanding of the cybersecurity challenges faced by organizations. This recognition highlights CIO Landing as a leader in fostering a safer cyber environment, helping businesses navigate evolving threats with expertise, and driving technological and business improvement through security-focused IT support. This is also a testament to CIO Landing's expertise, leadership, and unwavering commitment to protecting its clients' digital assets and ensuring their IT environments are secure, resilient, and compliant.

"The cybersecurity landscape is constantly changing, and our inclusion in the CRN Security 100 list for another year is a reflection of our ability to stay ahead of these changes, offering cutting-edge solutions that keep our clients safe," said Juan Carlos Bosacoma, CEO of CIO Landing. "I'm

incredibly proud of our team for maintaining the high standards of service and innovation that this recognition represents.”

The MSP 500 list will be featured in the February 2024 issue of CRN and online at [www.crn.com/msp500](http://www.crn.com/msp500).
