Robert Zehnder, President of Hodgson Consulting & Solutions, agreed and stated, "This accolade serves as a testament to our unwavering commitment to exceptional customer service and our dedication to safeguarding our clients. Our approach has always been to lead with innovation, and to offer support that is simply unparalleled in the industry — ensuring that our clients are not just satisfied, but truly have peace of mind in this world of constantly evolving and progressively complex cyber security."

The MSP 500 list compiled by CRN serves as a comprehensive guide to identifying and recognizing the top Managed Service Providers (MSPs) in North America. MSPs play a crucial role

in supporting businesses by offering managed services that enhance efficiency, simplify IT solutions, and optimize return on investment.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on- and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

The MSP 500 list aims to showcase and celebrate MSPs that are driving growth and innovation in the industry. These service providers not only enable businesses to harness complex technologies but also contribute to maintaining a strong focus on core business goals without stretching financial resources. By categorizing MSPs based on their business models and areas of expertise, the list helps end-users find the right partners to meet their specific needs and challenges in the rapidly evolving technology landscape.

Jennifer Follett, VP of US Content and executive editor of CRN, The Channel Company, emphasized the significance of managed services for businesses at various scales, stating, "Managed services provide a route for businesses of all sizes to maintain efficiency and adaptability throughout their growth journey.

"This recognition only strengthens our resolve to continue pushing to achieve our goal of delivering Client Success by removing every technical frustration, obstacles, and inefficiencies in their companies, said Karla Zehnder, CEO. "We thank CRN for acknowledging our efforts, as our entire team celebrates this remarkable honor to be included on such an elite list."

The MSP 500 list will be featured in the February 2024 issue of CRN and online at www.crn.com/msp500.
