LOS ANGELES, CALIFORNIA, UNITED STATES, February 12, 2024

/EINPresswire.com/ -- Adoption is a process; one that is almost neverending as everyone involved in it learns every day from each other. It is a process of love, one might say. With many years of experience, Doris Howe shares authentic stories that touch hearts in her book "[Adoption Joys 2: Dads Make A Difference](#)."

Adoption Joys 2: Dads Make a Difference

"Adoption Joys 2: Dads Make A Difference" is a reminder of how big of a role partnership plays in parenting. In adoption, specifically, a father, undeniably, does have an impact on the adoptee. There is that sense of security and support that dads provide that children always look and long for, and the book tells why that is.

Ephantus M. of Pacific Book Reviews finds the book a practical guide to those who are looking to adopt and says, "A Marveling book that will competently help with some of the questions adopted children may have. The author's disclosures, such as their ineptitude to have biological children are relatable subjects to many couples in identical crises, who may want to partake of the incomparable fulfillment and joy that parenting gives."

Insightful and real, Adoption Joys 2 is a guide as well as a gentle teacher to those who are currently going through the process of adoption and those who are looking into adopting.
