

# Re-Quest, Inc. Recognized on CRN's 2024 MSP 500 List

*CRN®, a brand of The Channel Company, has named Re-Quest, Inc. to its Managed Service Provider (MSP) 500 list in the Pioneer 250 category for 2024*

NAPERVILLE, IL, UNITED STATES, February 13, 2024

[/EINPresswire.com/](https://www.einpresswire.com/) -- Re-Quest, Inc., announced today that CRN®, a brand of The Channel Company, has named Re-Quest, Inc. to its Managed Service Provider (MSP) 500 list in the Pioneer 250 category for 2024.

The MSP 500 list compiled by CRN serves as a comprehensive guide to identifying and recognizing the top Managed Service Providers (MSPs) in North America. MSPs play a crucial role in supporting businesses by offering managed services that enhance efficiency, simplify IT solutions, and optimize return on investment.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

The MSP 500 list aims to showcase and celebrate MSPs that are driving growth and innovation in the industry. These service providers not only enable businesses to harness complex technologies but also contribute to maintaining a strong focus on core business goals without stretching financial resources. By categorizing MSPs based on their business models and areas of expertise, the list helps end-users find the right partners to meet their specific needs and challenges in the rapidly evolving technology landscape.

Re-Quest, Inc.'s services revolve around the infrastructure software layer of a company's solution. Their "sweet spot" is proactively managing and monitoring the database, middleware, and application software of a solution, where performance, availability, and technical needs most often occur. By providing proactive services at the technical layer, Re-Quest allows customers to concentrate on the functional layer of the application, providing the business value

Re-Quest, Inc. is honored that CRN® has named us to its Managed Service Provider (MSP) 500 list in the Pioneer 250 category for 2024."

of the solution.

Jennifer Follett, VP of US Content and executive Editor CRN, The Channel Company, emphasized the significance of managed services for businesses at various scales, stating, "Managed services provide a route for businesses of all sizes to maintain efficiency and adaptability throughout their growth journey. The solution providers featured in our 2024 MSP 500 list are introducing cutting-edge managed services portfolios to the market, enabling their clients to achieve success by optimizing their IT budgets.

This allows businesses to allocate resources strategically, concentrating on mission-critical tasks that drive future success."

"Re-Quest, Inc. is honored that CRN® has named us to its Managed Service Provider (MSP) 500 list in the Pioneer 250 category for 2024," said Ron Zapar, CEO of Re-Quest, Inc. "This recognition further confirms that our delivery model of providing Remote Managed Services for database and application infrastructure software in the Oracle, Microsoft, and IFS on-premises and cloud platforms space resonates with customers, and the marketplace as a whole, for its innovative value-driven approach."

The MSP 500 list will be featured in the February 2024 issue of CRN and online at [www.crn.com/msp500](http://www.crn.com/msp500).
