

# Simply Noted Announces Major Production Expansion to 36 Million Handwritten Notes Annually

*Simply Noted boosts production to 36M AI-written notes/year, leading innovation in personalized communication. #Tech #Innovation*

TEMPE, AZ, USA, February 20, 2024 /EINPresswire.com/ -- [Simply Noted](#), an innovator in

“

With our unique, in-house developed A.I. technology, we are setting new standards in the handwritten note industry!

We are committed to innovation and changing the handwritten space for the better.”

*Rick Elmore*

personalized communication, is thrilled to announce a significant expansion in its production capabilities, now capable of crafting upto 36,000,000 handwritten notes per year. This expansion underscores Simply Noted’s commitment to leading the industry in quality and innovation, leveraging its proprietary A.I. writing technology.

Unlike any other in the market, Simply Noted’s patent-pending A.I. writing robots represent the world’s first technology entirely designed from scratch, without reliance on third-party writing applications. This groundbreaking approach enables the delivery of unparalleled writing

quality, advanced technology, and top-tier customer service, all at the most competitive prices.

“With our unique, in-house developed A.I. technology, we are setting new standards in the handwritten note industry,” said Rick Elmore, Founder of Simply Noted. “Our expansion is not just about increasing numbers; it’s a testament to our relentless pursuit of innovation and excellence. We are committed to changing the space for the better, ensuring that our clients have access to the best possible service and technology.”

Simply Noted continues to lead the way in innovation, demonstrating an unwavering dedication to enhancing personal and professional communication through the power of handwritten notes. This expansion marks a significant milestone in the company’s journey, further solidifying its position as a trailblazer in the industry.
