

City of Champaign, IL, Grows OpenGov Partnership to Enhance Procurement Efficiency

ILLINOIS, UNITED STATES, February 14, 2024 /EINPresswire.com/ -- Facing the dual challenges of a manual, paper-based procurement system and no single source of truth for procurement data, the City of Champaign, IL, was on the hunt to find a solution. After the search, the City decided to grow its partnership with [OpenGov](#), who the City already partners with for online permitting and licensing needs.

Located just a few hours from Chicago, the City of Champaign is committed to excellence in governance and service delivery. In looking for a new procurement solution, leadership wanted a system that could automate and centralize procurement processes, including solicitation development, and improve vendor engagement. [OpenGov Procurement](#) emerged as the solution of choice, recognized for its ability to streamline solicitation development and provide a template library, creating significant time savings for staff.

With the implementation of OpenGov Procurement, the City of Champaign is poised to transform its procurement operations. The system promises to improve supplier engagement, deliver comprehensive contract management, and offer a centralized source of procurement data. These advancements are expected to standardize the City's operating procedures, increase vendor outreach, and ultimately improve efficiency and effectiveness in the City's procurement activities.

The City of Champaign, IL, joins thousands of public sector organizations leveraging OpenGov to revolutionize work processes with cloud-based software designed specifically for the needs of government.

About OpenGov

OpenGov is the leader in modern cloud software for cities, counties, state agencies, school districts, and special districts.
