This comprehensive programming reinforces KPP's role in enriching the cultural fabric of Dallas and solidifies its

position as a significant influencer in the city's dynamic entertainment landscape.

Kash Patel, the visionary behind KPP, shares his insights: "The demographic evolution in Dallas, punctuated by remarkable milestones, is revolutionizing the entertainment and cultural landscape of the area. The growth of the Indian-American community in the US is a story reinforced by research and compelling data. The rise of this community is not just a number; it's a narrative of cultural enrichment and economic prosperity. KPP is proud to be at the forefront as cricket's popularity surges in the Dallas-Fort Worth area, celebrating this journey and contributing to the narrative of a dynamic, vibrant Indian-American community."

Compelling data and research support the Indian-American community's growth in the US.

- The Economist highlights India's diaspora's unparalleled influence and size, calling it the most significant in history.

- Indian Americans are now the most populous Asian-alone group in the United States, according to a new report from the [US Census Bureau](#), with those who identified as "Indian-alone" (100% Indian) on the 2020 census numbered nearly 4,400,000 representing a 55% growth over a decade.

- [The Center for Immigration Studies](#) reports that Telugu is now the fastest-growing language in the country.

- Census data highlighted by WION News also shows that in August 2022, the average household earning of Indians in the US stands at \$123,700, which is far higher than other immigrants, including Sri Lanka, Japan, China, and Pakistan, and almost twice the US average of \$65,316.

- The 2022 US Census and the [Economic Times](#) also state that Indians constitute 79 percent of college graduates, exceeding the wealth and education levels of the American population.

These trends align with what is happening in Dallas, with the US census reporting over 235,000 Indians in the Dallas-Fort Worth region and over 450,000 Indian Americans in Texas, making it the second-largest Indian-American population in the country. "So, it's no surprise to us at Kash Patel Productions that concerts, events, and cricket are about to take off in a big way," adds Patel.

Cricket, the world's second most-watched sport, has become an essential focus for Kash Patel Productions, especially in the Dallas-Fort Worth area where the passion for cricket among Indian Americans has transformed Texas into a cricketing hotbed. In support of this data, Plano, TX, boasts the most extensive collection of cricket fields in the Southwest, as stated in the Dallas Relocation and Newcomer Guide. The sport's growing popularity is highlighted by the launch of the National Cricket League in Dallas in 2023 and the prestigious Men's T20 World Cup, co-hosted by the West Indies and the USA, with its opening match at the Grand Prairie Cricket Stadium. Kash Patel Productions is proud to be a part of this cricketing revolution, bringing together communities through sport and entertainment.
