Definition

The healthcare business process outsourcing (BPO) market refers to the outsourcing of specific business processes and tasks within the healthcare industry to third-party service providers. These providers offer specialized services to healthcare organizations, including hospitals, clinics, pharmaceutical companies, insurance providers, and medical device manufacturers. Healthcare BPO services cover a wide range of functions, including administrative tasks, revenue cycle management, claims processing, medical billing and coding, clinical research support, pharmaceutical outsourcing, payer services, and regulatory compliance assistance.
