

TangoScrubs help offer style and comfort for healthcare professionals

LOS ANGELES , CALIFORNIA , USA , February 17, 2024

/EINPresswire.com/ -- [TangoScrubs](#) could revolutionize

scrubs for medical professionals who work long hours at hospitals and healthcare facilities across the USA.

“

TangoScrubs is more than a brand; it's a vision brought to life by myself and my team as we fully understand the daily grind healthcare professionals experience.”

*Dr. Yasir Abdulqader,
TangoScrubs*

TangoScrubs is the new innovation in medical scrubs, with a focus on style, comfort and functionality, helping medical professionals to perform better in the workplace.

Dr. Yasir Abdulqader is the brainchild behind the new brand that speaks to the needs of healthcare professionals at all levels. As someone who has been in the thick of the healthcare hustle, he totally gets it.

“TangoScrubs isn't just about looking good; it's about scrubs that keep up with the demanding healthcare scene.

Each stitch tells a story of dedication and love for the profession. Our passion shines through in our new line of scrubs – from comfy and durable materials to those little details that make your scrubs fit just right,” says [Dr. Abdulqader](#).

“TangoScrubs is more than a brand; it's a vision brought to life by myself and my team as we fully understand the daily grind healthcare professionals experience. TangoScrubs transforms the way you see medical attire. It's not just about scrubs; it's about style, function, and that extra boost of confidence. We believe the right scrubs can make your healthcare experience a whole lot better,” he says.

Traditional scrubs require multiple layers: the V-neck shape leads to discomfort around the neck while using stethoscopes for long hours, and to top it off they are an eyesore.

“TangoScrubs, however, is designed for maximum comfort when worn as a single layer. These reimaged scrubs enable unrestricted movement and allow the user's body to breathe in the process. The new V-shape neck and collar design makes it easier to hang on the stethoscope for a longer period of time without experiencing any friction,” he says.

"TangoScrubs comes in a variety of styles and colors, allowing healthcare professionals to elevate their professional look. Tango also offers the best of both worlds: it helps boost your lifestyle with sleek modern designs that prioritize comfort, confidence, and convenience. Let's also not forget that this new line of scrubs will greatly help healthcare professionals stay cool and comfortable all day in its breathable and lightweight fabrics," he adds.

TangoScrubs offers men and women with a variety of options: scrub tops, scrub pants, and scrub sets.

"Healthcare professionals who are now utilizing TangoScrubs commend us for scripting a new chapter in the healthcare industry. We are getting amazing feedback, and everyone agrees that traditional scrubs will be a thing of the past, thanks to our hard work and efforts."
