

Hamby Family Dental Center Announces New Domain Name

Fuquay Varina, North Carolina – Hamby Family Dental Center, a locally owned and operated dental practice in Fuquay Varina renowned for its personalized patient care and high-quality range of treatments, is excited to announce the change of its domain name to

www.FuquayVarinaDentists.com to better represent the expansion of the practice.

Formerly www.MikeHambyDDS.com and changing to the new domain name to

www.FuquayVarinaDentists.com more appropriately represents Hamby Family Dental Center's practice because of the onboarding of a second dentist. With this addition, the practice now has two professional dentists, offering a comprehensive selection of services at the trusted practice.

"Having the dental practice in Fuquay-Varina, NC for over 35 years and now expanding to include a second dentist has lent us to opportunity to update our domain name to reflect multiple dentists alongside our community name," said Dr. Hamby of Hamby Family Dental Center.

Hamby Family Dental Center has been locally owned and operated in Fuquay-Varina for over 3 decades. The team is committed to continuing as the patient-driven, personalized, and service-oriented dental office they have always been but are looking forward to providing expanded services and more availability to patients with the expansion to a multi-dentist team.

The leading family dentist center provides its patients with a full menu of dental coverage including:

Teeth Cleaning: Healthy teeth and gums play an essential role in overall well-being, and in addition to brushing and flossing, the best way to maintain good oral health and keep a smile bright is by scheduling a teeth cleaning and dental checkup every six months.

Teeth Whitening: Individuals may feel embarrassed or self-conscious if teeth are stained or yellow. Instead of hiding a smile, you can visit Hamby Family Dental Center for professional teeth whitening solutions for a brighter smile.

Dental Implants: Hamby Family Dental Center offers dental implants which is one of the best ways to replace a missing tooth because it resembles a normal tooth's appearance, design, and functionality.
