

# Revolutionizing Dental Care: 2-Day Intensive Biological Dental Hygiene Workshop

*The 2-Day Intensive Biological Dental Hygiene Workshop underscores the significant link between oral health & systemic health, a cornerstone philosophy of IABDM*

SPRING, TEXAS, UNITED STATES, February 21, 2024 /EINPresswire.com/ -- [The International Academy of Biological Dentistry and Medicine](https://www.theinternationalacademyofbiologicaldentistryandmedicine.com/) (IABDM) is proud to announce its groundbreaking 2-Day Intensive Workshop in Biological Dental Hygiene. This transformative event is scheduled to bring together dental professionals from diverse backgrounds to explore the evolving world of holistic dental care.

This comprehensive course, designed by leading experts in the field, aims to equip participants with the latest knowledge and skills in biological dental hygiene. The workshop underscores the significant link between oral health and overall well-being, a cornerstone philosophy of IABDM. Renowned speakers, including Dr. Dawn Ewing, a naturopathic practitioner and Executive Director of IABDM, and Fran Horning BRDH, a certified Biological Dental Hygienist, will lead the sessions.

The intensive program will cover a range of critical topics such as:

- Foundations of Biological Dental Hygiene
- The Oral-Systemic Connection
- Holistic Patient Assessment Techniques
- Microbiome and Salivary Testing
- Biological Periodontal Therapy
- Nutrition and Oral Health
- Integration of Advanced Technologies in Dental Hygiene

**FEB 23-24 2024**

Biological Dental Hygiene Workshop

Participants will have the unique opportunity to engage in practical, hands-on workshops, utilizing tools like Phase-Contrast Microscopy and salivary testing. These sessions are tailored to provide a deep dive into the science and art of biological dental hygiene.

The workshop is about more than learning; it's also an opportunity for dental professionals to network with peers and thought leaders in the field. Interactive learning sessions, including case studies and group discussions, are designed to foster a collaborative environment.

Attendees will leave the workshop with a wealth of resources, including comprehensive course materials and templates. Moreover, the program offers Continuing Education (CE) credits, ensuring that participants remain at the forefront of developments in the field of biological dental hygiene.
