

eInvoicing: Factur-X, ZUGFeRD & XRechnung in Perfect PDF 12

soft Xpansion offers rich functions for European Union compliant eInvoicing (standards Factur-X, ZUGFeRD and XRechnung) in its Perfect PDF 12 program family

BOCHUM, GERMANY, February 21, 2024 /EINPresswire.com/ -- In Germany, the obligation to use real electronic invoices, planned to start on January 1, 2025, is coming. "Real" in this context means: from that date,

unstructured files like PDF or image files, or even paper invoices, must no longer be used. In anticipation of this, soft Xpansion already offers several functions for eInvoicing in its Perfect PDF 12 software family in accordance with the European Union's requirements (creation, editing, display and conversion of the supported Factur-X, ZUGFeRD and XRechnung standards). Prices will start from 7 Euros: Users can choose between an [Upgrade](#) (also for the free Perfect PDF 12 Reader) and the stand-alone [Perfect E-Rechnung Edition](#). With both products, it is also possible to create XML files, i.e. the real, structured invoice files. Familiarity with the XML data format and with the technical details of Factur-X, ZUGFeRD and XRechnung is not required.

Invoice details	
Invoice number	E4772485
Invoice issue date	10/26/2023

Invoicing party	
Company name	Vorkauf GmbH
Street / number	Berlinerstr. 225
Post code	90323
City	München
Country	Germany

Invoice recipient	
Buyer	Kaufler AG
Street / number	Jung Mülle
Post code	10178
City	Berlin
Country	Germany
Buyer reference	90320860-03083-12

Payment and Tax	
Due date	01/09/2024
Payment method	Credit transfer

Invoice items	
2 items(s) already specified.	

Total invoice amounts	
Net amount of all items	280.00
Sum of allowances at document level	0.00
Sum of charges at document level	0.00
Total invoice amount without VAT	280.00
Total VAT amount	53.20
Total amount with VAT	333.20
Paid amount	0.00
Amount due for payment	333.20

Creator for electronic invoices (XML) using the EU standards Factur-X, XRechnung and ZUGFeRD

Electronic Invoicing: Advantages

With eInvoices, invoice data is sent electronically in a structured form, can be received automatically and processed automatically as well - unlike with a paper invoice, image or simple PDF file. eInvoices therefore provide end-to-end digital processing - from invoice creation to payment. This saves time and costs.

Functional Overview & [Tutorial](#)

The feature overview is listed on the product web page of the Perfect E-Rechnung Edition. Additionally, a detailed tutorial helps customers on how to use the most important eInvoicing functions of Perfect PDF 12.

Current Legal Situation in Germany & Resulting Opportunities

The mandatory use of electronic invoices is planned to start no earlier than on January 1, 2025.

Furthermore, not all details have been finalized so far, the law that this obligation will be based on is currently discussed in the "Bundesrat/Bundestag Mediation Committee" (Vermittlungsausschuss), and there will be transitional deadlines. However: The eInvoice is coming, and any delays until the corresponding law comes into force only gives invoice issuers and recipients more time to prepare for the new situation in good time. Such delays can be used to monitor current developments, check existing software solutions, and to design invoicing processes correctly right from the start. Waiting, drinking tea or coffee and doing nothing for the time being would be the wrong strategy.

Prices, Availability, License Scope

- Program Upgrade: EUR 20 (one-time payment/lifetime license) or EUR 7 (annual subscription)
- Perfect E-Rechnung Edition: EUR 49.99 (one-time payment) or EUR 19.99 (annual subscription)
- Volume Discounts: for 2 licenses and more
