About Polaris Healthcare

After catering to corporate hospitals for over a decade, the duo Dr Surendra Patil and Dr Ujwala Patil decided to commence their multidisciplinary hospital in 2011 as a super-speciality orthopedic center along with a center for Natural Birthing and Gynaecology.

After encountering multiple cases and witnessing a crunch between the doctors and patients, they felt a need to start a space of their own where they could guide the patients in the right direction with personalised care and empathetic treatment. Their willingness to go above and beyond for their patients led to the conceptualisation of Polaris Healthcare.

Backed by multiple orthopaedic specialists and talented staff, Polaris HealthCare puts patients' welfare at the forefront. Recognised as one of the top-notch orthopaedic hospitals in Pune, Polaris Healthcare treats a series of complex knee and joint disorders with better treatment options and provides top care for their patients before and after surgery.
