Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from the Steinberg Law Group. [www.mesotheliomaoptions.com](http://www.mesotheliomaoptions.com)

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, the Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients. [www.mesotheliomaoptions.com](http://www.mesotheliomaoptions.com)

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2024 were exposed decades ago. [www.mesotheliomaoptions.com](http://www.mesotheliomaoptions.com)

Although natural asbestos deposits are present in southeastern Missouri (along the St. Francois Mountains), most Missourians who came in contact with asbestos were exposed in the workplace. Missouri residents who worked in auto manufacturing, mining, construction and the

The Steinberg Law Group has decades of proven experience and the resources to help victims of asbestos exposure and their families obtain the financial compensation they deserve.

military are at an elevated risk of developing an asbestos-related illness such as lung cancer or mesothelioma. In addition, many public buildings in Missouri were constructed using asbestos materials, which makes it extremely important that asbestos-abatement professionals are contacted prior to the start of any demolition or renovation.
