

Construction Links Network: Amplifying Digital Presence in the Construction Industry - February 22, 2024

SUNDRE, ALBERTA, CANADA, February 22, 2024 /EINPresswire.com/ -- Since its establishment in 2003, Construction Links Network has emerged as a premier news and information hub in the construction sector. With a commitment to enhancing the digital presence and search engine visibility of its members, Construction Links Network has become an indispensable resource for a wide array of professionals. This includes construction managers, contractors, developers, building and property managers, architects, designers, engineers, and government officials.

As a dynamic hub for digital content dissemination, Construction Links Network offers its members diverse engagement opportunities through news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, and videos.

This week's top video comes from IHSA.ca who give a demo of the Silica Control Tool for Ontario. Offered by OHCOW (Occupational Health Clinics for Ontario Workers), this tool is a resource designed to assist workplaces in managing silica exposure. This tool provides guidance on controlling silica dust in various job tasks, helping to reduce the risk of silica-related occupational illnesses. It is specifically tailored for the Ontario regulatory framework and is aimed at enhancing workplace safety by addressing the hazards of silica dust.
