

Antea Announces Continued Global Expansion with New Office in Milan, Italy

Antea, a global leader in risk-based asset integrity management software with digital twin technology, has opened a new office in Milan.

HOUSTON, TEXAS, UNITED STATES, February 22, 2024 /EINPresswire.com/ -- [Antea](#), a pioneering leader in risk-based asset integrity management (AIM) software with [digital twin](#) technology, has announced the opening of a new office in Milan, Italy. This announcement continues with Antea's recent global expansion and marks a significant milestone in the company's 35-year journey since its inception in 1989.

As the only AIM software provider offering "Digital Twin 2.0" for contextualized visualization and real-time access to asset intelligence, Antea empowers operators to make data-driven decisions, mitigate risks, and optimize asset performance throughout their lifecycle. With the establishment of the Milan office, Antea strengthens its global presence and enhances its ability to provide local support for customers and operators in the region.

"We are thrilled to announce the opening of Antea's new office in Milan," said Floyd Baker, Vice President of Antea (Americas). "It is a strategic step that reinforces our commitment to innovation and excellence in asset integrity management. Milan's dynamic business environment makes it an ideal location for Antea to expand our operations and serve our clients more effectively. This expansion not only brings us closer to our European clients, but also allows us to tap into local talent and expertise. We look forward to contributing to the region's growth and to forging lasting relationships within this vibrant community."

The office will deliver all of Antea's globally trusted solutions, including advanced AIM software, inspection data management system (IDMS), risk based inspection (RBI) for API 581, pipeline

integrity management software (PIMS), and more. These solutions empower operators to streamline workflows, optimize maintenance strategies, and ensure regulatory compliance. By leveraging real-time data and predictive analytics, operators can reduce shutdowns, minimize downtime, and extend the lifespan of critical assets.

The new office is located at Via Roma 74, 20051 Cassina de' Pecchi, Milano, Italy.
